### Task 1 Counter Terrorism Measures

Explain 5 out of the 11 methods implemented by the public services (Police/MI5 OR Army) and expand on a range of the counter terrorist measures used to prevent domestic or international terrorism.

Produce a clear explanation of the method including key terminology. Some will only be relevant for the public service you pick so pick the 5 you feel you can expand on the most effectively.

Pick 5 from the list below –

- Trade and sporting sanctions/Ban terrorist fund raising
- Direct retaliation (what does the service do to the terror groups after a major attack)
- Undercover operations by public service personnel
- Training for attacks including biological and chemical attack
- Control of migration and bogus asylum seekers
- Maintaining security of public buildings
- Tensions between freedom of speech and other human rights issues contrasted with anti-terrorist measures/Allow freedom of expression
- Awareness/vigilance campaigns/advertisements/Educating the public/Educate the public on awareness of terrorist threats.
- Cooperation with counter-terrorist authorities in other countries including sharing of intelligence. (So sharing info with other armed forces or police forces to help fight terrorism)
- Encourage a socio-economic climate that stops people turning to violence (things us as citizens take for granted for example access to education, going to the gym, have utilities, access to social media)/Building relationships with communities
- Censorship of terrorist organisations (terrorist propaganda online or through religious means)

Present your findings using a written report and use a variety of resources to help you to describe and explain each measure.

Your report should be a minimum of 500 words and should be Hand written or **typed up in word/equivalent using key terminology that is spelt correctly**. Make sure this is presented as neatly as possible.
