COURSE GUIDE 24/25

#SEEYOURFUTURE

PRINCIPAL'S WELCOME

Franklin has cultivated an outstanding reputation for its commitment to students and strong community focus that's critical to contributing to our area's ongoing development. Coupled with tailor-made Study Programmes, Professional Programmes, state-of-the-art facilities, and extra opportunities, our college is a place where students can transform themselves on a personal and professional level.

We recognise that all students have different needs, that's why our teachers and support teams are specialists at enabling students to achieve their full potential. It's why we've earned a national reputation for independent, research-led learning, and for fostering a safe, inclusive environment for everyone.

We're immensely proud to be a place where young people from across the region can develop and grow, achieving their aspirations and evolving into the future of our community and beyond. At Franklin, we provide opportunities for students to change their world.

**I look forward to welcoming
you to Franklin.**

I didn't know any other students going on the trip, it really pushed me out of my comfort zone, but I enjoyed every minute. Two weeks of incredible excursions

ENRICHMENT @FRANKLIN

Your studies are central to getting you started on your desired career path, but we offer more than a classroom via our exciting enrichment programme – called Personal and Professional Development.

You'll be able to mix and match Personal and Professional Development programmes to align with your aspirations and interests. However you decide to choose, you'll develop transferable skills, gain important experiences, make new friends, and build confidence as you start to make your future ambitions a reality.

Studies show that students who take part in enrichment activities are statistically more likely to obtain a bachelor's degree, show advanced academic performance, exhibit improved leadership and time management skills, as well as develop confidence.

Did you know you can complete an Extended Project Qualification (EPQ) alongside your studies? Dive into a topic of your choice to support critical thinking, research skills, creativity, and time management. You'll also gain more valuable UCAS points.

Centre for Professional Development

Our nationally-recognised Centre for Professional Development (CfPD) ensures you have all the information, support, and experiences you need to step confidently towards your chosen future.

The CfPD offers links with universities, higher apprenticeship providers, and employers to boost your skills, provide valuable experiences, and significantly improve your employability and life chances. This unique approach means that everything you learn and the skills you develop during your time at Franklin are helpful to you and those you go on to work with or for.

WHAT CAN YOU EXPECT FROM THE CFPD?

- One-to-one career appointments
- Impartial careers advice
- Onsite career activities
- Access to lunchtime drop-in support sessions (on topics including CV writing, personal brand creation, UCAS support, and interview tips)
- A weekly info-packed careers newsletter
- Skills development opportunities
- Access to industry and masterclasses
- Annual Careers & Progression Evening
- STEM Conference
- Focussed weeks supporting National Apprenticeship Week and National Careers Week
- Outstanding enrichment opportunities
- Exciting work experience
- Employer visits and university guest speakers

WORKING WITH YOU

Our Centre for Professional Development (CfPD) is made up of a brilliant set of individuals including several Level 6 qualified careers advisors who all share one vision – giving you the tools to create your dream career.

The Team collaborate with local partners to offer a curriculum relevant to regional and national employment opportunities. Through interactive talks, masterclasses, visits and more, the Team will help you to see your future and develop the skills needed to get you there.

The Team work closely with local employers, universities, higher apprenticeship providers, and the Greater Lincolnshire LEP to ensure we meet the area's skills needs and priorities to support the future talent pipeline.

You'll also get involved in a structured timetable of events and a host of other programmes that maximise your chances of career success by enhancing curriculum-based activity.

The CfPD also operates our Franklin Professionals programmes, providing students with the skills and industry experience needed to access their chosen careers.

CAREER ACADEMY

Everything you need to get ahead in your chosen career. We have four themed academies: Business & Logistics; STEM; Health & Social Care, and Law.

HIGH FLYERS

An opportunity for our most academically able students to gain the skills and experience required to progress onto higher apprenticeships or the most prestigious universities.

TEACHING ACADEMY

A year-long programme in partnership with Lincoln's Bishop Grosseteste University. You'll undertake ten placements at a local school, gaining hands-on experience in a teaching environment.

MENTAL HEALTH ACADEMY

Running in partnership with Navigo and The University of Hull, this exciting programme will enable you to understand the role of a mental health specialist, and the core skills and values needed to build effective relationships.

ASPIRING FUTURE MEDICS

Intended for those wanting to become a doctor, vet, or dentist. You'll attend a variety of dedicated sessions including talks from healthcare professionals and university admission teams to support you with your application to some of the most competitive degrees.

DEBATE CLUB

Our popular Debate Club allows you to take part in spirited debates on a range of topical and important issues. As well as debating opposing teams at Franklin, you'll also get the opportunity to hone your skills by competing against other colleges nationally. A perfect way to nurture key communication and research skills, foster healthy, proactive discussion, and build strong connections.

FIND OUT MORE

SOCIAL WORK ACADEMY

This exciting programme allows you to discover all you need to become a social worker. Delivered in partnership with North East Lincolnshire Council, Focus, and the University of Hull, it culminates in two masterclasses where you'll be introduced to studying social work at degree level.

ALLIED HEALTH PROFESSIONALS

Running in partnership with Grimsby Hospital, Care Plus Group, Navigo, and the University of Hull, this programme offers you the opportunity to engage with professionals to learn all about the different careers and pathways this exciting sector offers.

SPORT LEADERSHIP ACADEMY

This programme combines academic classroom lessons with practical delivery. Our Sports Leaders currently run a variety of sporting events with local primary and secondary schools alongside the region's Schools Sport Partnership.

TALENTED ATHLETE PROGRAMME

Every year, we welcome talented athletes who want to nurture their sporting skills whilst progressing with their education. You'll have a dedicated member of staff available to provide support and help balance sport and study commitments.

Franklin is a place where you can hone in on the things you love, feel supported whilst doing so and leave prepared for what comes next

STUDENT SUPPORT

Every student has a right to come to Franklin and feel safe, supported, and welcomed. That's why we take safety and support seriously and strive to ensure our college is a nurturing and inclusive environment for all.

Aspire

Aspire is an essential part of your Study Programme. You'll hear from guest speakers, attend group sessions and one-to-ones, and carry out independent study as you progress in your journey to becoming a well-rounded, highly employable young adult.

You'll also be assigned a Progress Coach to help guide your personal and professional development. They'll support you through the UCAS process, assisting with application forms, interview techniques, and more. Progress Coaches also provide pastoral support, ensuring help is always close at hand.

Study Support

We're experienced in supporting students with a wide range of physical disabilities and learning difficulties. College staff receive specialist training, and we'll strive to meet your unique needs. Support can include anything from help with one-off study problems to one-to-one support sessions and workshops in spelling and punctuation, organisation, effective study habits, and revision strategies. Whatever your requirements, we'll support you through your studies to ensure you achieve your full potential.

Wellbeing

Using the Thrive model, our Wellbeing Team works with students to build emotional resilience. If needed, they can help to organise counselling services and provide pastoral support. We've also got therapy dogs regularly on site for students to interact with. Support Groups such as our LGBTQ+ group and Male Wellbeing Group take place weekly, while quiet areas around College are available for those who like somewhere peaceful to study and/or socialise. Emotional health and wellbeing-themed Aspire sessions are integrated throughout the year, focusing on aspects such as resilience, healthy eating, positive relationships, and self-care.

Home Education

We welcome applications from students who've been home schooled and wish to move into a college environment. Visit our **website** or **call 01472 875000** to find out about all the support available.

FINANCIAL SUPPORT

Don't worry, we cover essential course costs such as printing, textbooks, and equipment. But we also have a robust range of financial aid in place for any students who need extra support during their studies.

Student Financial Support Fund

Students in priority groups can receive a bursary of up to £1,200 per year. Once your application has been approved, we'll contact you to discuss how best to utilise the bursary for your educational needs.

Daily Meal Allowances

If you have a household income which fits the threshold, or received free school meals in secondary school, daily meal allowances may apply to you. If eligible, a daily meal allowance will be assigned directly to your student card.

Discretionary Financial Support Award

Students who live in a household with an income below £36,000 (including most benefits) will be eligible for a discretionary financial support award. This supports the cost of trips, and necessary resources whilst studying at Franklin. If eligible, you can also choose between a travel pass for use on our buses (if you live more than 1 mile from College) or a Daily Meal Allowance.

Find out more about financial support, access eligibility criteria, and more by scanning the QR code. You can also contact our student finance team at student.finance@franklin.ac.uk or 01472 875000.

Tech Support

Our expert Tech Team provides a variety of support for students. From offering free software and access to smart phones and laptops, to help with emails, access to Google Classroom, and Office 365. They're on hand throughout your time at College, ensuring robust, reliable tech support is available whenever needed.

STUDENT TRANSPORT

We operate multiple bus routes across Lincolnshire, ensuring our service is safe, affordable, and efficient. You only have to pay £1 each way. Financial support is also available if needed.

ENTRY REQUIREMENTS

Depending on your course choices, you'll require slightly different grades.

We'll help you choose the best courses for you, your next steps, and advise on the grades you'll need all the way along.

Minimum Level 2 Study Programme Entry Criteria

4 GCSEs or vocational equivalents, including a minimum of grade 3 in English Language and a grade 2 in Maths.

Minimum Level 3 Study Programme Entry Criteria

A Level Programme

5 academic GCSEs, a minimum of 3 x grade 5s and 2 x grade 4s, these should include English Language and Maths.

Vocational Programme (BTEC/CTEC/Diploma)

5 GCSEs at grade 4 or above these should include English Language, plus GCSE Maths at grade 3 or above.

COURSE
REQUIREMENTS

PREPARING FOR FRANKLIN

We understand that moving from school to college is a big change, we're here to help every step of the way.

Here's a handy guide to our transition programme which supports your journey from school to life at Franklin.

Part 1 TASTER DAY

Join us in early July for a chance to feel what life is like to study as a Franklin student. You'll try out each of your first-choice courses, experience the college and its fantastic facilities, meet our staff, and sample our amazing food with a free lunch. You'll also be assigned bridging work to introduce you to the work style and content of your chosen courses to complete before enrolment.

Part 2 ENROLMENT

Taking place straight after receiving your GCSE results, your enrolment appointment is where we'll confirm your place and Study Programme. If you don't achieve your predicted grades, don't panic! We can work with you to offer an alternative programme and support you on your dream future.

Psst, don't forget to bring along your completed bridging work to enrolment

Part 3 FRANK FEST

Frank Fest is our one-day, open air event offering you a great start to the academic year. It's a friendly, fun, and relaxed welcome to Franklin. You'll experience our street food market, live music, and fun activities including esports, archery, and more running throughout the day. Plus, you'll get to meet plenty of staff and make new friends. There'll also be opportunities to chill in quiet areas, and you'll get to say hello to our adorable therapy dogs. Best of all, it's completely free!

Part 4 ORIENTATION DAY

Orientation Day allows you to get to grips with the college before your timetable starts. It's your last day of introductions before lessons begin, so use this opportunity to ask questions, check out your timetable, and explore the campus. Free transport and food will be provided.

Part 5 FIRST DAY OF TIMETABLED LESSONS

After your Preparing for Franklin Programme, you'll start your Study Programme. We'll support you to access your timetable on your Student Portal before your first day so you can plan your route to College and familiarise yourself with how to get around.

If you have any worries, require additional support, or want to know more about how we can help you, please email admissions@franklin.ac.uk

**Welcome to
life @Franklin!**

HISTORY

A Level

Level	Programme	Duration
3	Single	2 Years

Delve into the fascinating world of modern history and study the importance of civil rights and democracy for the working classes, as well as the impact of dictatorships and their tyranny on ordinary people. Make sense of the present by exploring the past and earn a versatile qualification in the process.

What will I learn?

Studying A level History will see you explore the complexities of Communist Russia and the People's Republic of China (1949 to 1976). You'll also explore British history with a key focus on protest, agitation, and reform from 1780 to 1928, while coursework will focus on the abolishment of the slave trade in Britain. As a History student, you'll be able to attend overseas trips to Athens or Rome, as well as getting to know British history better with a visit to Manchester. You'll also experience university lectures, seminars, and workshops at the University of Hull's acclaimed Wilberforce Institute for the Study of Slavery and Emancipation.

A level History students go on to work in a variety of different fields, such as the Creative and Digital industries, and the Business, Retail, Legal, and Public sectors

Possible career paths

- Archaeologist
- Archivist
- Curator
- Heritage Manager
- Educator
- Journalist
- Civil Servant
- Lawyer / Solicitor
- PR Professional
- Business Manager

- Debate Club
- Environmental Champions
- Mock Trial
- Lessons from Auschwitz

ANCIENT HISTORY

A Level

Level	Programme	Duration
3	Single	2 Years

If you have a passion for all things ancient, this is the course for you. Gain a thorough understanding of some of the classical world's most intriguing eras as you develop key analytical and debating skills.

What will I learn?

During A level Ancient History, you'll explore the politics and society of Athens (460 - 399BC), the collapse of Rome's Late Republic (88 - 31BC), the Persian and Peloponnesian Wars (491 - 404BC), and the Julio-Claudian Emperors (31BC - 68AD). Bring the classical world to life with an amazing trip to either Rome or Athens and use Personal and Professional Development programmes like Debate Club to further enhance your skills.

Possible career paths

- Archaeologist
- Archivist
- Curator
- Heritage Manager
- Educator
- Journalist
- Civil Servant
- Lawyer / Solicitor

- Environmental Champions
- Journalism Club
- Mock Trial

GOVERNMENT & POLITICS

A Level

Level	Programme	Duration
3	Single	2 Years

Develop critical thinking skills as you explore multiple perspectives in complex arguments, while nurturing a comprehensive understanding of both the British and global political systems. A fascinating course where genuine free speech is welcomed, and evidence-based views are always encouraged.

What will I learn?

Studying A level Government & Politics will provide you with an understanding of British politics, exploring pressure groups, devolution, voting systems, and more. Go further and discover the forces of globalisation and influential bodies such as the UN, NATO, and the IMF. You'll also get to grips with a variety of differing ideologies, from anarchism to conservatism and everything in between. As well as hearing from inspiring guest speakers and getting stuck into debates, you'll step out of the classroom to visit the University of Hull, Parliament, and the Supreme Court in London.

Possible career paths

- Politician
- Civil Servant
- Internal Relations Specialist
- Marketing / Communications / PR Professional
- HR Professional
- Research Fellow
- Police Officer

100% pass rate for all students studying Ancient History, History, Government & Politics, and Geography

GEOGRAPHY

A Level

Level	Programme	Duration
3	Single	2 Years

If you want to experience the world and discover more about how and why things happen, studying A level Geography is for you.

What will I learn?

Throughout this course, you'll mix physical and human geography to understand what makes things happen across the UK and on a global scale. Key course topics include tectonic plates and coasts, globalisation and regeneration, water and carbon cycles, superpowers, migration, and identity. You'll have the chance to complete an independent investigation in the second year in an area that fascinates you. Step outside the classroom with a range of trips, visits, and experiences in the field.

Possible career paths

- Environmental Consultant
- Disaster Risk Management
- Cartographer
- Town Planner
- Global Trade Programme Manager
- Social Researcher
- Nature Conversation Officer
- Sustainability Consultant
- Transport Planner

FINE ART

A Level

Level	Programme	Duration
3	Single	2 Years

If you're a creative person with a passion for exploring ideas and imaginatively developing your own visual arts projects, this is the course for you. Be adventurous as you respond to historic and contemporary art, and develop the skills, understanding, and confidence you need to nurture your dream career.

What will I learn?

Studying A level Fine Art promises studio-based learning with supportive and critical guidance to help you flourish as an artist. You'll be immersed in workshops in drawing, painting, sculpture, printmaking, and new and emerging media to hone your skills and understanding. You'll develop personal thematic projects and have plenty of opportunities to showcase your work. You'll also be able to engage in a rich variety of industry talks and workshops as well as trips and visits and residencies in St Ives, Amsterdam, and London.

Possible career paths

Level	Programme	Duration
3/4	Triple	1 Year

If you're aiming to attend one of the country's most prestigious art and design courses, this Foundation Diploma is for you. Build on knowledge nurtured at Level 3 as you explore your creative vision and learn how to operate as a professional artist or designer.

What will I learn?

This amazing full-time Foundation Diploma is broken down into three key stages. In the Exploratory Stage, you'll take part in creative skills workshops and challenges, attend artist talks, galleries, and artwork made on location. The Pathways Stage will see you explore specialist project briefs and critical reviews, whilst providing you with portfolio support and UCAS guidance. You'll also have the opportunity for a residential in Amsterdam. The last stage is your Final Major Project which results in a public exhibition of your work. You're free to research what kind of creative future you wish to pursue and learn how to operate as a professional artist or designer. This helps ensure you have a pathway to a rewarding career in your chosen field.

Possible career paths

- Artist
- Architect
- Interior Designer

Enjoy regular trips and visits to museums, art galleries, guest speakers, and workshops run by practicing artists

GRAPHICS

A Level

Level	Programme	Duration
3	Single	2 Years

Are you a creative thinker and image maker with a desire to communicate visually? Then Graphics is the course for you. Develop the skills you need to secure an exciting future in illustration, advertising, typography, packaging design, or multimedia.

What will I learn?

On this fascinating A level course, you'll learn in a variety of amazing environments, from our high spec Mac Suite to our traditional print and design studio. You'll solve design problems through creative projects and gain industry experience by responding to real life briefs. The course will develop key industry skills in illustration, typography, infographics, product design, branding, and multimedia design. Hear from guest speakers, participate in trips and visits, and showcase your own work.

Graphics students have gone on to a range of creative degrees at university – including TV & Radio Production, Film Production, Graphic Design, Architecture, Photography and more!

FASHION & TEXTILES

A Level

Level	Programme	Duration
3	Single	2 Years

If you have a feel for materials and construction, then Fashion & Textiles is the course for you. Learn all about stitching, assembling, printing, and designing and carve out your chosen career in the exciting fashion and textiles industry.

Did you know that there are almost 2.3 million creative jobs in the UK?

What will I learn?

As not all Fashion & Textiles students were able to study the subject at GCSE, this course provides an introduction to core skills. You'll also explore stitch, print, pattern, garment construction, 3D construction, needle felting, and fashion illustration. As well as exploring personal thematic fashion and textiles projects in a supportive studio environment, you'll also be able to showcase your work at fashion shows and visit exhibitions. The course regularly brings in guest speakers, including Our Big Picture, Stylist Emily Jones, and film director Jack Spring, to name a few. Prior study of an art-based course at GCSE is required, or you can provide a portfolio of creative work.

Possible career paths

- Fashion / Textile Designer
- Garment Technologist
- Fashion Illustrator
- Pattern Cutter / Grader
- Personal Stylist / Shopper
- Fashion Buyer

PHOTOGRAPHY

A level

Level	Programme	Duration
3	Single	2 Years

“Photography is by nature a documentary art,” stated acclaimed portrait photographer August Sander, and this course will offer you a treasure trove of opportunities to document your world through a camera lens. Develop your personal creative vision through a technical and experimental approach to this ever vital art form.

What will I learn?

Studying A level Photography will help you develop camera skills and process and print film techniques in a darkroom. You'll explore digital photography and nurture skills in Photoshop and post-production display in our state-of-the-art Mac Suite. You'll also take inspiration from photographers from Louis Daguerre to Diane Arbus and everyone in between as well as the world of commercial and modern photography as you work on personal thematic projects. Our Photography Studio provides you with a wide variety of backdrops, lighting options, plus props and resources. Outside of the studio, you'll engage with photoshoots on location, trips, exhibitions, and have ample opportunities to showcase your own work.

BUSINESS

BTEC

Level	Programme	Duration
2	Double	1 Year

If you're looking to start your own business or understand how business works, this course is a catalyst to get you where you want to go.

What will I learn?

With Level 2 Business, you'll study a range of insightful topics such as customer service, team building, advertising, creating a website, and making money. You'll examine key areas of the business world including promoting a brand and teambuilding. Our team of enthusiastic and experienced staff have significant business knowledge between them, being able to offer you support and share your love of the business world. This course is equivalent to 2 GCSEs and our students often progress onto Level 3 BTEC Business, before securing a job or a place at university.

- Student Union

BUSINESS

BTEC

Level	Programme	Duration
3	Single, double, or triple	2 Years

What will I learn?

Studying BTEC Business as a single option will complement any other course you choose, providing an amazing understanding on how businesses operate and how business is relevant to every area of life. Key course topics include developing a marketing campaign, personal and business finance, and recruitment and selection. As a double option, you'll go further by learning key skills which can be used in managing your own business and people on a national and global scale. Topics include international business, principles of management, and pitching a business idea. When it comes to the triple option, you'll have the opportunity to become a business expert and learn all about customer service, teambuilding, creative promotion, and market research. You'll also take part in work experience to learn from real life settings and put what you've studied into practice.

Prepare for the world of work with an in-depth and highly versatile Business course. Supercharge your personal and professional development through key skills including financial management, communication, presenting, and report writing.

ENGLISH LANGUAGE

A Level

Level	Programme	Duration
3	Single	2 Years

What will I learn?

During this eye-opening course, you'll explore the impact of social media and technology on language in the present and go back to 950AD to track changes in the attitudes and values of society. Learn how people use language to control and influence others and find out why the 'Forbidden Experiment' impacts our understanding of child language acquisition. You'll also practice being a professional writer as you learn how to respond to a brief. Step out of the classroom with visits to London, university lectures, and virtual talks from David Crystal, the world's leading linguistic expert.

Question the society we live in through the lens of English Language, all the while building skills highly sought after in a range of different sectors. Exploring the importance of language allows you to understand the past, present, and our changing future, covering everything from history to current affairs.

Nurture your interest in the games industry and develop the skills you'll need to creatively develop game ideas. From 3D modelling to games testing and everything in between, bring your ideas to life and turn your career aspirations into reality.

What will I learn?

Digital Games Design is intended to provide a technical introduction to digital games production. You'll develop skills in key areas such as games engine scripting, 3D modelling and environments, and games testing. That's not all, you'll also explore concept art for computer games and digital animation. Plus, you'll be free to use our state-of-the-art facilities and equipment including our Esports Suite, games engine, and photography studio, to make your own practical media productions. Future proof your career by developing key transferable skills that will allow you to enter a range of vibrant digital industries.

Possible career paths

- Concept Artist
- Character Designer
- Background Designer
- Games Tester
- Animator
- Games Producer
- Gameplay Designer
- User Experience Designer
- 2D/3D Modelling Artist

Complimentary courses

- Esports
- Graphics

ESPORTS

BTEC

Level	Programme	Duration
3	Single or Double	2 Years

If competitive gaming is your call, this course will equip you with what you need to know to enter the world's fastest growing entertainment industry. From skills and strategy to player analysis, entrepreneurship, and health and wellbeing, here's your pathway to a dream esports career.

**Benefit from our
state-of-the-art
Esports Suite**

What will I learn?

Studying Esports provides you with a deep understanding of this rapidly expanding industry. As well as perfecting your play style, you'll explore the business side of things, turning you into a fully rounded esports entrepreneur with the skills needed to succeed. The single course covers strategies, analysis, enterprise, and player health, wellbeing, and fitness. Go deeper with the double and explore esports coaching, video production, and live stream broadcasting. You'll also have the chance to join our very own in-house esports team – the Franklin Raiders. The team regularly signs up to the British Esports Student Championships and competes against over 100 other schools and colleges.

Possible career paths

- Professional Esports Player
- Esports Event Manager
- Esports Presenter
- Video Editor
- Social Media Content Creator
- Esports Producer

DIGITAL FILM & TV PRODUCTION

BTEC

Level	Programme	Duration
3	Single or Double	2 Years

Develop a creative portfolio alongside skills in film and TV production, covering all aspects of the industry from pre- right through to post-production. Gain a variety of valuable industry skills including editing, lighting, and screenwriting to take you where you want to go.

What will I learn?

Studying Digital Film & TV Production will see you develop short films, music videos, and other video products, honing skills in lighting, cinematography, video editing, screenwriting, and sound recording. You can look forward to using Adobe Creative Cloud industry standard software for all your creative work. Taking the course as a double will allow you to go deeper, with topics on stop motion animation, media enterprise, and responding to a commission. Whether or not you take single or double, you'll still be able to visit film festivals, university taster days, and amazing places like Disneyland Paris.

Possible career paths

- Camera Operator
- Cinematographer
- Director / Producer
- Video Editor
- Special Effects Supervisor
- Post-Production Coordinator
- Animator
- Scriptwriter
- Sound Technician

Complimentary courses

- Film Studies
- Performing Arts
- Photography

Which Personal and Professional Development programmes would benefit me if I took this course?

- Film Club
- Creative Writing Club
- Photography Club

Previous students have gone to work on Marvel and Disney movies as well as popular TV shows and Netflix series

Former students have progressed on to careers in VFX editing, photography, marketing, and teaching

FILM STUDIES

A Level

Level	Programme	Duration
3	Single	2 Years

Film Studies introduces you to an exciting and challenging variety of films to broaden your horizons and present you to new ideas. Discover different ways of telling stories and see the power of cinema as an art form. Put theory into practice by producing your own short film or screenplay.

What will I learn?

Studying this thought-provoking course will immerse you in fascinating debates about why audiences react to films in different ways, the role and impact of a director, and a mix of political, social, cultural, and historical contexts. You'll study key movements in film history from the golden age of Hollywood, the contemporary American and British film scenes, experimental films, as well as global film and documentaries. This all culminates in the creation of your own short film or screenplay. You'll also gain valuable industry insights and experiences with trips to film festivals, studios, and university taster days and workshops.

Possible career paths

- Broadcast Presenter
- Film Director
- Film / Video Editor
- Location Manager
- Production Designer
- Programme Researcher
- Runner
- Camera Operator
- TV / Film / Video Producer
- Journalist
- Screenwriter

DRAMA & THEATRE STUDIES

A level

Level	Programme	Duration
3	Single	2 Years

Calling anyone with a passion for performance and a love for playing a character on stage. If you want to pursue a future as an actor, director, or working behind the scenes, this course will help you carve out your dream career.

What will I learn?

Drama & Theatre Studies will introduce you to acting techniques by applying the methods of various theatre practitioners to your performances. Through a series of challenging workshops, you'll develop your command of realism in performance, learn how to create three-dimensional characters for a scripted performance, and experience other stylised forms of theatre practice. You'll also develop robust analytical and evaluative skills through a series of academic workshops. You'll visit a live theatre performance each year to support your studies, and there are plenty of opportunities to perform and showcase your work.

Possible career paths

- TV / Film / Radio Actor
- Drama Therapist
- Director
- Producer
- Theatre Technician
- Stage Manager
- Lighting Designer
- Costume Designer
- Community Arts Leaders
- Theatre Critic
- Drama Teacher

PERFORMING ARTS

BTEC

Level	Programme	Duration
3	Single or Double	2 Years

If working within a creative and inspiring team with plenty of performance opportunities is your calling, Performing Arts is the right path for you. Don't worry if your singing, dancing, or acting isn't where you want it to be. Together, we'll help you hone your natural talents and nurture new ones.

What will I learn?

Explore successful performers, enhance performance skills, and track self-development in vocal quality, timing, and more with a BTEC in Performing Arts. Immerse yourself in workshops on key practitioners like Lin Manuel Miranda and Frantic Assembly. Learn, rehearse, and perform musical numbers from various shows, including *Waitress*, *Heathers*, and *Les Misérables*. Engage in highly creatively devised theatre workshops to create innovative performances. Choose from single or double modules, investigating practitioners' work, developing live performance skills, and participating in group and individual performances. You can also learn technical elements of performance from staging and lighting, to sound to music editing.

Possible career paths

- Musical Theatre Performer
- Vocal Coach
- Cruise Ship Performer
- Comedian
- Choreographer
- Drama Therapist
- Stage / Film / TV Director
- Dance / Music / Performing Arts Teacher
- Speech / Language Therapist
- Events Manager

Performing Arts students have gone on to attend Arden, Emil Dale Academy, and LMA

MUSIC

A level

Level	Programme	Duration
3	Single	2 Years

Turn your passion into a career path with A level Music. Develop your technical skills across performing, composing, listening, and appraising – all the while exploring the world of classical, pop, and jazz. Students often progress onto some of the UK's finest music conservatoires or degrees.

What will I learn?

A level Music is typically divided into three core components: performance of instrumental or vocal; composition, and anthology of vocal, instrumental, film, pop, jazz, fusions, and new directions. Studying Music will allow you to utilise our industry-level recording studios and soundproofed spaces, as well as offering ample opportunities to take part in music events and live concerts. But it doesn't stop there, every half term, you'll hear from expert industry speakers and get stuck into amazing workshops. You'll also develop a range of transferable skills from performance to independent learning, which will serve you well in whatever future path you take.

Possible career paths

- Composer
- Live Events Producer
- Music Performer
- Music Journalist
- Music Manager
- Music Producer
- Production Stage Manager
- Songwriter
- Sound Engineer

CRIMINOLOGY

WJEC

Level	Programme	Duration
3	Single	2 Years

If you want to learn more about why people commit crimes, how criminal behaviour can be explained by societal roles, and more, then Criminology is for you. A versatile course that can help pave the way for amazing careers and higher education opportunities.

What will I learn?

Criminology offers a dynamic range of topics to explore, including the changing awareness of crime, criminological theories, crime and punishment, and following the process from crime scene to courtroom. Studies will be supported with the use of real-life cases such as Stephen Lawrence, the Wests, OJ Simpson, and many more. You'll also enjoy a practical element with mock crime scenes to nurture an understanding of crime scene forensics.

Possible career paths

- Scenes of Crime Officer
- Forensic Practitioner
- Criminal Justice Caseworker
- Victim Support
- Outreach Caseworker
- Social Worker
- Probation Worker

SOCIOLOGY

A level

Level	Programme	Duration
3	Single	2 Years

If you have an interest in current affairs, Sociology could be the course for you. Consider the ways society and the world around us affect our behaviour from examining identities to experiences of discrimination.

What will I learn?

Throughout this fascinating Sociology course, you'll explore the reasons people commit crime and society's reaction, the influence of the media on our behaviour and the way we see other groups of people in society, reasons for differences in educational achievement, experiences of discrimination by different social groups, reasons individuals adopt different identities (such as gender), and the research methods sociologists use to study society. You can also look forward to studying why certain groups may commit crime, whether the media affects our behaviour, and why some groups succeed more in education.

Possible career paths

APPLIED LAW

BTEC

Level	Programme	Duration
3	Single	2 Years

If working in law is your dream job, then this course is perfect for you. Experience law in a practical setting and debate your way through Mock Trial and Mooting competitions.

What will I learn?

You'll study how to advise a client and act in the role of a legal advisor when completing engaging coursework projects and controlled exams. Key course topics include the English legal system, law making, criminal law, and tort law. As part of your studies, you'll experience law in a vocational context and have the opportunity to analyse and apply how laws are made. Project based learning will help you to strengthen your knowledge of the law and apply it to current issues. Personal and Professional Development programmes including Mock Trial and Debate Club will help to further hone the skills you'll develop by taking this course.

A photograph of two female students in a laboratory setting. They are both wearing white lab coats and clear safety goggles. The student on the left has dark hair and is holding a test tube. The student on the right has blue hair and is looking at a glass apparatus. The apparatus consists of a vertical glass tube with a red stopper at the top, connected to a horizontal tube with a yellow stopper, which is then connected to a vertical tube that goes into a beaker. The beaker is labeled '100ml'. The background is a blurred laboratory environment. The image is set against a blue background with a green triangle in the top left corner.

MATHS

GCSE

Level	Programme	Duration
2	Single	1 Year

Delivered by dedicated, top of their field teachers, this course will help you gain your GCSE Maths qualification in an engaging and inviting way. Best of all, you can study alongside your other course choices.

What will I learn?

Studying GCSE Maths at Franklin gives you the best possible opportunity to progress and gain confidence. You'll explore a key range of topics including algebra, geometry, statistics, ratio, and proportion. You'll develop a wealth of maths knowledge as well as building a bank of transferable skills such as problem solving, data analysis, communication, logical thinking, and attention to detail.

At Franklin, we're well above the national average for improving student entry grades and progression to achieve the national pass of Grade 4

MATHS

A Level

Level	Programme	Duration
3	Single	2 Years

Explore a wide range of exciting topics by studying A level Maths and unlock a whole host of amazing career and higher study opportunities.

What will I learn?

Pure maths makes up two thirds of this fascinating course, building on your knowledge in algebra and trigonometry. It also introduces calculus and the study of continuous change. The last third of the course is made up of mechanics and statistics. Throughout your studies, you'll use a graphing calculator to solve problems and evolve your mathematical understanding. Trips to universities and guest speakers will provide even more opportunities for you to develop and nurture your skills and awareness.

BIOLOGY

A level

Level	Programme	Duration
3	Single	2 Years

If dealing with the challenges posed by climate change and feeding a growing population keep you up at night, Biology is the course for you. A challenging but rewarding course, Biology offers a fascinating scientific insight into life on our planet.

APPLIED HUMAN BIOLOGY

BTEC

Level	Programme	Duration
3	Single	2 Years

What will I learn?

Taking Applied Human Biology will see you study the details of important human biological processes, then link them to common health and healthcare issues. You'll study a variety of topics from microbiology and infectious diseases to the main aspects of the human body, such as the circulatory system, cells, tissues, and biological molecules. Moving onto Year 2, you'll examine health issues related to the human systems studied in the previous year.

What will I learn?

Studying Biology will introduce you to recent biological advances, including the influence of genetics, environmental issues, and some of the ethical and technological aspects of natural science. As a practical subject, you'll develop experimental skills sought after by industry and academia including how to plan, analyse, and evaluate experimental procedures. Biology is often essential for higher level medical related courses but is also highly regarded by universities as a foundation for many science-related degrees.

Possible career paths

- Medical Biologist
- Veterinary Medicine
- Dentistry
- Nursing
- Physiotherapy
- Supporting Healthcare Roles (e.g. Radiographer)
- Forensic Scientist
- Biomedical Scientist
- Sports Scientist
- Zoologist
- Pharmaceutical Scientist

PHYSICS

A Level

Level	Programme	Duration
3	Single	2 Years

Physics is a fusion of maths and science. As part of this course, you'll study both. Use Physics as a tool to decode the forces of nature, matter, and energy, and develop the skills needed to understand the invisible to the unimaginably large.

What will I learn?

Studying Physics will see you explore a whole host of fascinating topics including mechanics, materials, particles and quantum phenomena, thermal properties, radioactivity, nuclear physics, and many more. Throughout the course core, activities form a thread linking theoretical knowledge to practical scenarios, building a broad working knowledge. All Physics students must also take A level Maths, providing all the skills and understanding you'll need to excel in your chosen field.

Possible career paths

- Engineer
- Medical Physicist

100% positive destinations for students studying Chemistry

What will I learn?

Build on the knowledge you acquired at GCSE level, including organic chemistry, rates, reversible reactions, and chemical calculations. You'll use your mathematical skills to solve problems and your imagination to understand how molecules interact and why they react together. Core units of the course include Development of Practical Skills in Chemistry, Foundations in Chemistry, The Periodic Table and Energy, Core Organic Chemistry, Physical Chemistry & Transition Elements, and Organic Chemistry and Analysis. As an essential qualification for higher level medical-related courses, studying Chemistry will help unlock your chosen future.

ENGINEERING

CTEC

Level	Programme	Duration
3	Double	2 Years

If you love solving problems and thinking creatively, this is the course for you. Studying Engineering will open up a range of exciting careers – from energy to aviation and beyond – and help you develop your skills in the design, development, manufacture, and maintenance of engineering products and systems.

What will I learn?

As well as physics and maths, you'll study a variety of different forms of engineering with a major focus on electrical. You'll learn how to design and test electronic circuits on printed circuit boards along with the use of simulation software in electronics. Use computer-aided design (CAD) software to design 3D products and learn how to programme a microchip and use it to control circuitry in project work. You'll also be able to visit local universities and take part in projects and development programmes to gain valuable industry insights.

Possible career paths

- Electrical / Electronic Engineer
- Design Engineer
- Civil Engineer
- Software Engineer
- Process Engineer
- Aerospace Engineer
- Energy Engineer

Complimentary courses

- Maths
- Physics

Which Personal and Professional Development programmes would benefit me if I took this course?

- Faulkes Telescope
- Franklin Minds

UNIVERSITY
OF HULL

In partnership with the University of Hull, our Engineering course familiarises students with university studies and provides the best possible advice and guidance for students progressing to degree level Engineering and, ultimately, into successful careers in the industry.

APPLIED SCIENCE

BTEC

Level	Programme	Duration
3	Single, Double or Triple	2 Years

If you're a budding scientist, this is the course for you. Study key scientific ideas and refine your lab skills as you open up a variety of different career paths including biomedical science, pharmacology, and law.

What will I learn?

Taking Applied Science will see you study the practical application of science in vocational settings, with a focus on biology, chemistry, and physics. You'll gain valuable experience in managing the entire scientific process. Visits to local employers and universities will let you witness how the science you learn is applied in real-world contexts; plus, overseas trips will broaden your knowledge. Delve deeper with a double option and, if you want to take it further with the triple, you'll choose between an Applied Science or Biomedical Science route. Whichever you decide, you'll gain the necessary knowledge and skills to excel in your chosen future.

Possible career paths

- Laboratory Researcher
- Pharmacist
- Molecular Biologist
- Field Application Scientist
- Application Scientist
- Field Support Scientist
- Medical Science Liaison
- Technical Support Scientist

Complimentary courses

- Maths
- Computer Science
- Biology
- Physics

Which Personal and Professional Development programmes would benefit me if I took this course?

COURSES

SPORT BTEC

Do you have a passion for sport and dream of progressing onto an exciting career in the industry? Nurture deep knowledge and transferable skills that will help you realise your dreams as you prepare to work in the world of sport.

What will I learn?

During this fascinating course, you'll dive into anatomy and physiology, fitness training and programming, professional development in the sports industry, application of fitness testing, investigating business in sport/physical activity, sports coaching, skill acquisition, and sports leadership. You'll have access to various trips and workshops from a range of universities and sports industry locations to support your studies and help you prepare for life after Franklin.

Possible career paths

- PE Teacher
- Sport / Exercise Scientist
- Sports Psychologist
- Sports Coach
- Sports Development Officer
- Sports Journalist
- Sport Rehabilitator

Complimentary courses

- Biology
- Business
- Criminology
- Psychology
- Sociology
- Physical Education
- Uniformed Protective Services

Which Personal and Professional Development programmes would benefit me if I took this course?

- Competitive Sports Teams
- Recreational Sport
- Lunch time and after College sports
- Sports Leadership Academy
- Journalism Club

**Why not study your Level 3
Sports Leaders Award alongside
any of our courses?**

PHYSICAL EDUCATION

A Level

Level	Programme	Duration
3	Single	2 Years

If you're passionate about all things active, studying Physical Education will allow you to explore a range of topics in depth, apply these to your own practical performance, and inspire you into various sport-related careers or higher-level study.

What will I learn?

With Physical Education, you'll study a broad range of fascinating topics including anatomy, exercise, physiology, sports injuries, skill acquisition, sports psychology, historical, social and cultural issues in sport, and practical performance in one sport. Step outside the classroom with visits to local employers and take part in masterclasses at various universities to deepen your knowledge on topics such as biomechanics and V02 Max Testing. Trips abroad to Malta and Italy offer amazing opportunities to coach and participate in team sports. You'll can also take part in various sports teams and recreational activities through the department's Personal and Professional Development offering.

PUBLIC SERVICES

BTEC

Level	Programme	Duration
2	Double	1 Year

Exciting topics and practical activities linked to the police, NHS, fire and armed services ensures this course is an ideal entry into public services. Perfect if you want to prepare for our Level 3 Uniformed Protective Services course, or if you're looking to pursue a career in the public or protective services.

What will I learn?

On this fascinating one-year course, you'll explore working skills and employment in the public services, citizenship and diversity, crime and its effects on society, health and lifestyle, and sport and recreation in the public services. You'll also embark on trips and visits, allowing you to meet different forces and representatives from a variety of charities and organisations. If that wasn't enough, you'll also be able to take part in activities with the Army, Royal Marines, and the Blue Cross.

Complimentary courses

- GCSE Maths
- GCSE English

Which Personal and Professional Development programmes would benefit me if I took this course?

- Sports Teams
- Sports Leadership Academy

UNIFORMED PROTECTIVE SERVICES BTEC

Level	Programme	Duration
3	Single or Double	2 Years

If you're interested in progressing into any public service, this course will prepare you with specific employability skills and knowledge. It's far from completely classroom based with various trips and practical activities linked to the police, NHS, fire, and armed services.

What will I learn?

Studying this course will provide you with deep insight into behaviour and discipline, teamwork, leadership, and communication in the Uniformed Protective Services, as well as an introduction to criminology, police powers, and the law. Year 2 will see you explore citizenship and diversity, physical preparation, health and wellbeing, government and the protective services, and developing personal fitness programmes. A range of fun trips and fascinating guest speakers will help bring lessons to life, with previous years enjoying army assault courses and joining the Royal Marines as part of their open day recruitment event.

Possible career paths

- Police
- Army
- Navy
- Air Force
- NHS
- Fire Service

Complimentary courses

- Sport
- Criminology
- Psychology
- Law

Which Personal and Professional Development programmes would benefit me if I took this course?

- Sports Teams
- Sports Leadership Academy

Previous Uniformed Protective Services students have enjoyed trips to the Fire Service, Hull Prison, Melton Police Station, paintballing at Elsham Hall, and activities led by Army, Navy, and Air Force personnel

GRIMSBY TOWN FOOTBALL CLUB

FOOTBALL SHADOW SCHOLARSHIP

BTEC

Level	Programme	Duration
3	Triple	2 Years

Delivered in partnership with Grimsby Town Sports & Education Trust, this course is perfect if you want a chance to represent our Grimsby Town FC Football Shadow Scholarship team whilst studying for a career in sport. Unique work experience opportunities will also help you to develop in the coaching and performance field.

What will I learn?

You can study and play football whilst representing a youth team sports apprenticeship. You'll train four times a week and then compete against teams for other professional football clubs, taking part in a regional league and entering several national cup competitions. When it comes to study, you'll explore careers in sport and active leisure, self-employment in sport, sports development in the UK, health and wellbeing in sport, officiating, coaching, and assisting coaching sport, anatomy and physiology, planning sports events, research in sport, fitness training, and sports nutrition.

Possible career paths

- PE Teacher
- Sport / Exercise Scientist
- Sports Psychologist
- Sports Coach
- Sports Development Officer
- Sports Journalist
- Sports Rehabilitator

The Grimsby Town FC Football Shadow Scholarship team has won various English Football League national titles over the last three years
