WORK

EXPERIENCE

Virtual Work Experience with ABP

Step into the world of Associated British Ports (ABP) and discover how ports keep Britain trading. This virtual work experience programme gives you an inside look at trade, sustainability, safety, and careers in one of the UK's most vital industries. Through interactive modules, real-world examples, and practical insights, you'll learn how ABP connects the UK to global markets, supports the energy transition, and creates exciting career opportunities. Ready to explore what happens beyond the shoreline? It's time to board!

Launching 2nd March register your interest [here](#).

Virtual Work Experience with TLT

In partnership with Springpod we have launched a virtual work experience programme which provides an insight into a career in law and early career opportunities at TLT. We are hopeful that our virtual work experience offering will increase accessibility and allow for flexibility.

February 23rd click [here](#) to apply.

Work Experience with BAE Systems

Browse through our latest work experience jobs to discover outstanding global career opportunities with BAE Systems and apply today

Spring pod Visual Work Experience

Unlock the door to in-person work experiences that take your career aspirations to new heights. Our virtual work experiences have already empowered thousands of students like you to explore diverse industries and gain valuable insights into their dream careers. Now, it's time to turn those insights into real-world action.

To get started click [here](#) to see what visual work experience is available

National Apprenticeship Week

Craftsperson Apprenticeship

Location: North East, Yorkshire, The Humber and northern Lincolnshire

Programme duration: Three years

Starting salary: £23,493 with a potential earnings capability c. £50k as an established Craftsperson

Do you want to help light up the region, power your career and be part of an evolving energy industry?

We're looking for aspiring and ambitious individuals who are ready to join our highly competitive craftsperson apprenticeship programme and earn while you learn.

The energy industry is advancing with investment in smart technology innovation and Northern Powergrid, as the company responsible for powering everyday life for 8 million customers across 3.9 million homes and businesses in the North East, Yorkshire, The Humber and northern Lincolnshire, is at the forefront of delivering a power network that meets the region's needs, now and in the future.

We're looking to attract a diverse group of high calibre, agile individuals to join our team, whether you've recently finished studying or you're in an established career and looking for a change in direction.

If you'd like to be part of this journey, have what it takes to be the best and want to energise your career, this is the opportunity for you.

If you're successful, you'll get to carry out a three-year apprenticeship programme and train in one of the following roles:

- **Overhead Lineperson** – construct and maintain overhead electricity lines
- **Underground Cable Jointer** – repair, install and connect underground electricity cables
- **Electrical Fitter** - install and maintain electrical plant and equipment.

You'll enjoy a great mix of practical experience and on-the-job training while studying at college to achieve the Power Network Craftsperson Apprenticeship. Prove yourself and enjoy a rewarding career.

So, if you are highly motivated, well organised, love being outdoors and enjoy a challenge, apply now and see if you have what it takes to join Northern Powergrid and energise your future career.

As part of the selection process, you will need to complete an online application form and participate in a practical assessment day.

Visit northernpowergrid.com/careers to find out more about this and other career opportunities.

Closing date for applications: 29 March 2026

We run a comprehensive candidate assessment process that includes attendance at an assessment centre followed by a face to face interview. The dates for these will be:

Assessment centre dates: Various dates between April, May and June

Interviews: Various dates between June and July

Start dates: 24th August 2026 or 7th September 2026

Applicants are considered on the basis of their suitability for the post irrespective of sex, marital status, sexual orientation, gender re-assignment, race, age or disability, in accordance with the Equality Act 2010.

Foundation Degree Trainee

Location: North East, Yorkshire, The Humber and northern Lincolnshire

Programme duration: Three years

Starting salary: £26,000 increasing to circa £44,500 on successful completion

As the company responsible for powering everyday life for 8 million customers across 3.9 million homes and businesses in the North East, Yorkshire, The Humber and northern Lincolnshire, Northern Powergrid is at the forefront of delivering a power network that meets the region's needs.

We're looking to the future, embracing new technology and sustainable resources, developing environmental projects and reducing our carbon footprint. We're investing in our network, in our customers and in our people as we work to deliver a greener energy system for the regions and communities we serve.

That's where you come in. We want you to grow, to be challenged, and to succeed. To do that Northern Powergrid is offering a tailored programme to become a fully qualified Electrical Power Network Engineer. Funded by us, you will also work towards achieving a two-year Foundation Degree in Electrical Power Engineering at Aston University.

You'll gain a broad range of invaluable experience and knowledge in a variety of structured placements and formal courses.

You'll be working outside with our industrial and engineering colleagues and will get involved with the design aspects of power engineering. In addition, you'll have the opportunity to experience first-hand, the work of our external suppliers and partner organisations, gaining a broader understanding of how our assets are designed and manufactured.

Once you've successfully completed all required elements of your training programme you'll be appointed to a challenging and rewarding engineering role within our business.

Have you got what it takes to apply?

To qualify you will have GCSEs (Grade 5 or above) or equivalent (Grade C or above) in Mathematics and English Language, and two A-Levels or 2 AS/A2: Grades A*- C (one must be in either Mathematics, Physics or Engineering)

Closing date for applications: 1st March 2026

Expected start date: 14th September 2026

Our selection process includes a formal interview, and attendance at an assessment centre in late June or early July. You will be notified towards the end of July if your application has been successful and is through to the next stage.

*A condition of your continuous employment with Northern Powergrid will be to obtain a full UK driving license within your first year if you do not already hold one.

Applicants are considered on the basis of their suitability for the post irrespective of sex, marital status, sexual orientation, gender re-assignment, race, age or disability, in accordance with the Equality Act 2010.

MASTERCLASSES

Student Finance Made Simple! With Aston University Birmingham

Join us for a practical webinar where you'll learn how to apply for student finance, understand the support available to you, and get valuable tips on budgeting and managing your money effectively. This is also your chance to ask any questions you have about student finance or university life.

Taking place at Imphal Barracks, Fulford Road, York YO10 4HD

Times: 9am-12pm and 1pm-4pm

Registration is available from the beginning of February click [here](#) to find out more.

Success at School- Free Webinars

Join Success at School for an invaluable webinar designed to elevate and help you stand out in today's competitive job market. Current Webinars are related to Accountancy and take place the beginning of December.

For more information click [here](#) to register.

Peacebuilding Through Visual Art: with Gresham College

How can the visual arts be used to promote peace? Professor Mitchell investigates how the visual arts can not only incite violence, but also bear witness, reveal dangerous memories, transform violence, contribute to healing trauma and imagine more hopeful futures.

Examples are taken from both current conflicts (Russia-Ukraine, Israel-Palestine) and past wars (Paul Nash and Otto Dix in the First World War, local artists in the Iran-Iraq War and the 1984 Rwandan genocide). Professor Mitchell analyses the ambivalent role of the visual arts in building peace.

This will take place on Wednesday 11th February at 6pm – click [here](#) to watch.

UNIVERSITY INFORMATION

Lincs to Medicine: Widening Participation Summer with the University of Lincoln

This exciting Summer School is offering 20 year 12 students a fully funded and immersive experience in medicine.

To apply, students must be in Year 12 and reside in Greater Lincolnshire from a "Widening Participation" background. This unique programme includes a fully supported residential experience, giving participants a real insight into what it takes to become a doctor in today's NHS. Students will take part in a two-night residential stay at the University of Lincoln's vibrant Brayford Campus, running from Friday 17 July to Sunday 19 July 2026. The programme features a range of engaging activities, all delivered by clinicians and academic staff, designed to support and inspire aspiring medical students.

Deadline is Tuesday 31st March 2026, to submit an application click [here](#).

Open Day with Birkbeck, University of London

Birkbeck, University of London has been pioneering higher education teaching for over 200 years. With daytime and evening study options, easy access to award-winning career services and our central London location, students have access to excellent transport links, 24-hour buses and multiple train and tube stations nearby. Whether working, commuting, exploring or volunteering, London becomes part of their everyday experience at Birkbeck.

Join us Saturday 7th March 10am to 12:45pm click [here](#) to register

Student Experience: Mental Health and Wellbeing Conference 2026 with Universities UK

Join us for our annual conference on all things mental health and wellbeing on Thursday 26 February 2026. Take part in engaging plenaries, interactive sessions and networking opportunities.

Register now to either join us in-person in London or Online via livestream of the plenary sessions and select breakout sessions.

To find out more and register click [here](#).

Law in the Age of AI with University of Sussex

Join Dr Sarah Stephens (Associate Professor, Legal Innovation), Shaun Ring (PhD researcher in Law & Technology), and Matt Pollins (Technology/ Media Lawyer) for a fast, fun, jargon-free session. We'll show simple, real examples, bust the biggest myths ("Will robots replace lawyers?"), and explain where human judgement still matters most.

Booking deadline 11th February 2026, to find out more click [here](#).
