

The background of the cover features three smiling students (two girls and one boy) sitting in front of a large pink banner. The banner has white social media icons for Facebook, Twitter, and Instagram at the top, and the word 'Franklin' in large white letters below them. The student on the left is a girl with long brown hair, wearing sunglasses on her head and a black top. The student in the middle is a boy with short brown hair and glasses, wearing a red shirt. The student on the right is a girl with long blonde hair, wearing a colorful patterned top. The banner also has the words 'Sixth Form' visible. A blue triangle is in the bottom right corner.

COURSE GUIDE

23/24

#SEEOURFUTURE

PRINCIPAL'S WELCOME

It is my privilege to lead the region's best sixth form provider, with an outstanding reputation for commitment to students, and a strong community focus critical to contributing to the development of our region.

We recognise that all students have different needs; our teachers and student support teams are skilled at enabling our students to achieve their full potential. We are proud of our national reputation for independent, research-led learning, not only for the benefit of our students and their families but also for the impact from the experts this has had on the community in which we live.

We offer the widest range of academic and vocational courses in the region, underpinned by developmental study programmes. Our study programme includes skills development and

enrichment opportunities designed to support the growth of students.

Our nationally recognised Centre for Professional Development is sector-leading. It provides pathways and opportunities for our students to support them on their journey to becoming the professionals of the future. We offer a wide range of bespoke programmes for our students in areas including; High Flyers, Oxford and Cambridge support, Aspiring Medics, Law, Teaching and Engineering Academies to name a few.

We are immensely proud to be a place where the young people of our community can develop and grow, making their way towards building and becoming the future of our community, and beyond. An opportunity to change their world, from the world of elite sports to the worlds of politics, science, the arts and everywhere in between.

I look forward to welcoming you to Franklin, a fantastic college.

Peter Kennedy

Principal & CEO

TRIPS @FRANKLIN

Franklin offers a wide range of outstanding trips which are both educational and memorable. As a student at Franklin you will benefit from participating in countless trips and visits locally, nationally and internationally.

There are trips for everyone. Making memories that will last a life time is a massive part of college life.

COLOSSEUM

POLAND

LONDON

ATHENS

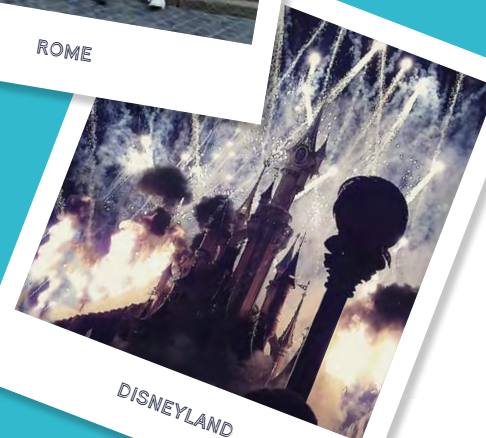

ROME

MALTA

I didn't know any other students going on the trip, it really pushed me out of my comfort zone, but I enjoyed every minute. Two weeks of incredible excursions.

DISNEYLAND

ENRICHMENT @FRANKLIN

At Franklin, we offer an amazing range of enrichment opportunities for you. Enrichment accompanies your study programme to allow you to meet new friends, try out a new hobby or enhance your skills ready for your future progression.

Here is just a taste of some of the enrichment activities you can look forward to:

- A variety of sports activities for all
- Film Club
- Debate Club
- Franklin Student Union
- Student Ambassadors
- Mountaineering Group
- Music and Drama Productions
- LGBTQ+ Franklin SWAG Group
- Lessons from Auschwitz
- Mock Court Trial
- Esports
- Yoga & Mindfulness
- Fine Art and Photography
- Social Action Projects
- Trips all over the UK
- Business Enterprise competition
- Creative Writing and Journalism

New for 2022, Female Football:
Lincolnshire Lionesses

EXTENDED PROJECT QUALIFICATION (EPQ)

Why not complete the Extended Project Qualification alongside your studies? You have the opportunity to choose and research your topic of choice. The size of the report will depend on the level you choose. It will support critical thinking, research skills and creativity!

- You will develop research, critical thinking and essay writing skills
- Develop creativity and time management skills

Level 2 = 0.5 GCSE

Level 3 = 28 UCAS Points

We welcome the Extended Project and would encourage applicants to undertake one as it will help develop independent study and research skills valuable for Higher Education.

UNIVERSITY OF
CAMBRIDGE

It's great to see an applicant's enthusiasm for an industry when we can see they have completed an additional qualification on top of their academic workload. They are the type of reliable applicants we want in our business.

”

Centre for Professional Development

Centre for Professional Development

“
One of the most innovative & successful initiatives in the college sector.

James Kewin, Deputy Chief Executive, Sixth Form College's Association

”

“
Great place with so many opportunities to get involved outside of lessons.

”

The Centre for Professional Development provides a range of different services to ensure students have all the information and support they need to make the best possible informed choices for that chosen future.

You will benefit from:

- Direct advice from the professionals through talks and mentoring
- A range of hands-on experiences through industry master classes
- Employer visits
- Work placements and summer internship opportunities
- Joining any of our Professionals programmes to support with that dream career!

“
Franklin has given me the confidence to pursue my ambitions.

”

Career Ready

Franklin Sixth Form College are partners with Career Ready, a national programme designed to link education with business and industry. This exciting enrichment programme focuses on raising aspirations and employability skills, equipping you with skills, behaviours and attitudes to be successful in the workplace.

Franklin High Flyers

This programme is designed to stretch and challenge our most academically able students, providing the opportunity to progress successfully to the most prestigious universities or higher apprenticeships. You can expect a wide range of opportunities tailored to your individual needs and progression plans in order to nurture and shape your ambitions.

- By being on this programme you will access a range of bespoke activities designed to develop your academic skills and critical thinking
- You will visit top universities with the chance to meet current undergraduates and tour the fantastic facilities
- You will attend master classes with a wide range of guest speakers including the universities of Oxford, Cambridge and Manchester Metropolitan, and other Russell Group universities

Katherine Sumcad
Former Tollbar Student

A Level English Language - A
A Level Graphics - A*
A Level Sociology - A
EPQ (Extended Project) - A

Destination:

Study English Language and Linguistics at the University of Sheffield

Franklin has been such a positive working environment, it has been really supportive and provided me with so many additional opportunities.

Franklin Teaching Academy

Are you aspiring for a career in the teaching profession? If so, this programme offers fantastic opportunities and experiences to start you on that journey now!

- You will undertake 10 placements in schools to gain hands-on experience in a teaching environment
- Attend masterclasses at the Teaching University of Bishop Grosseteste University in Lincoln
- The opportunity to gain valuable experience in teaching and mentoring
- Attend workshops designed to help young people develop skills and techniques needed to become a teacher, including safeguarding, communication, presentation styles and educational philosophy

Lucy Topliss
Healing School

A Level English Language - A
A Level Literature - A*
A Level Sociology - B

Destination:

Study English Language and Linguistics at the University of York

The Teaching Academy is affiliated with Bishop Grosseteste University, it allowed me to gain work experience in education, I really enjoyed.

Professionals' Programmes

Aspiring Future Medics

Do you aspire to be a doctor, vet or dentist? If you do, this programme is a fantastic starting point!

- Learn from the professionals in bespoke workshops covering medical ethics
- Take part in trips to industry settings
- Visit top universities and ask questions of current undergraduates whilst touring medical schools and finding out about medical admissions tests

Professionals' Programmes

Talented Athlete Programme

Are you a talented athlete? At Franklin we understand the amount of commitment high-level, competitive sports require. If this is you, at Franklin you can expect support as part of our Talented Athlete Programme. Every year we welcome a number of students who want to continue with their education whilst developing their sporting talents. This programme will support you to ensure that you can fulfil both training and study commitments to maximise future opportunities in education and sport.

Franklin Leadership Academy

Experience hands-on delivery of a range of sports events, a perfect start to a career in sports!

- Taking part will offer you the opportunity to experience a variety of roles relating to the organisation and leadership of sports, providing a better understanding of a range of different sports
- Involvement in this programme will offer opportunities for leadership activities in primary and secondary school sports, and in local and regional competitions and games events
- You will also complete the Level 3 Sports Leaders Award Qualification as an additional course on your Study Programme

STUDENT SUPPORT

Taking care of our students

At Franklin we are fully committed to safeguarding, Prevent and the wellbeing of our community.

We have a safeguarding team who work with different agencies to offer our college community the most appropriate and up-to-date support. More information on safeguarding and child protection including prevent and wellbeing can be found on our website.

The college has a Wellbeing Team which provides support, guidance and strategies to build emotional resilience. The college has a student counselling service, which provides access to one-to-one counselling where required.

ASPIRE programme

The ASPIRE programme will develop your employability skills and prospects with a focus on personal development and progression. This is a compulsory part of your Study Programme. During your time at Franklin you will have your own Progress coach, who is there to support you with your studies and anything outside of the classroom which you may need. The Progress Tutors are amazing and really help all the students they support.

We welcome our therapy dogs on site daily, they are our students' best friends.

Study Skills

At Franklin we have experience in supporting students with a wide range of physical disabilities and learning difficulties. College staff receive specialist training in this area and we will do our best to meet any individual needs you have. Support can include anything, from help with one-off study problems to one-to-one support sessions and workshops in spelling and punctuation, organisation, effective study habits and revision strategies. Whatever your needs, we will support you through your studies to ensure that you achieve your full potential at Franklin.

Study support has been a huge help, making my experience that bit better.

Financial Support

Essential course costs, such as course printing, textbooks and equipment are covered by the college.

However, additional financial support is available if you qualify. Depending on your household income, you may qualify for financial support in the form of subsidised transport, curriculum-based trips, equipment, free meals and other assistance to help you achieve your full potential while in education. Our Student Finance Team can help with any enquiries.

Home Schooled Students

At Franklin we welcome you if you have been home-educated and wish to move into a college education environment.

“

Moving to Franklin from being home-schooled made me realise Franklin is truly a place to thrive.

”

The college welcomes applications from students who have been home-educated previously and wish to move into a college environment. For further details of the support available to students, please visit the website www.franklin.ac.uk or give us a call on **01472 875 000**

“

Franklin is a very supportive college and will help everyone and anyone.

”

HISTORY A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect for you if you want to study the importance of civil rights and democracy for the working class, as well as the impact of dictatorships and their tyranny on ordinary people. The course also offers many opportunities to research and discuss other historical topics like this further.

Course Topics

- Communist states - Russia 1917 – 1991
China 1949 - 1976
- Protest, agitation and reform - Britain 1780 – 1928
- The reasons for the abolishment of the slave trade in Britain

Assessment

- 20% Coursework
- 80% Examination

History - 55% of students gained a B or higher in their exams in 2021.

GOVERNMENT & POLITICS A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect for you if you want to study topics such as Brexit and analyse democracy and how it works. In Government & Politics you will explore a variety of political questions and topics and provide the answers through the study of the UK and USA political systems.

If you're interested in society, politics and debating topical issues then combine your study of History or Politics with A Level English Literature (Page 41).

Course Topics

- British Politics
- Global politics: Globalisation, UN, NATO, IMF, Human Rights and the environment
- Ideologies of Anarchism, Conservatism, Liberalism and Socialism
- Focus is on the relevance of Government and Politics

Throughout the year guest speakers, debate and visits are integral to the course.

Assessment

- 100% Examination

ANCIENT HISTORY A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you have a passion for all things ancient. By studying this course you will gain a thorough understanding of the period, important analytical and debating skills, and have an opportunity to visit either Rome or Athens!

Course Topics

- The politics and society of Athens
- The collapse of the Late Republic in Rome
- The Persian and Peloponnesian Wars
- The Julio-Claudian Emperors

Assessment

- 100% Examination

Ancient History - 58% of students gained a B or higher in their exams in 2021, and 100% of students passed.

LAW A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect for you if you have a passion for debating and solving complex criminal and civil law issues. Join us to explore how law regulates all aspects of life – rightly or wrongly.

Course Topics

- Criminal law
- Tort law
- Contract law

Legal services has been a growing industry over the past few years and this is reflected in the local area. Several of our students have secured positions due to contacts made during their studies at college.

You will also consider how morals and public policy impact upon the development of our laws. Lively debates, mock trials and case studies will enhance your knowledge. This course will provide you with an excellent foundation for studying Law at degree level.

Assessment

- 100% Examination

APPLIED LAW BTEC (Level 3)

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you want to experience law in a practical setting and debate your way through Mock Trial and Mooting competitions. During the course you will study how to advise a client and act in the role of a legal advisor when completing engaging coursework projects and controlled exams.

Course Topics

- The English Legal System
- Law Making
- Criminal Law
- Tort Law

As part of your studies you will experience law in a vocational context and have the opportunity to analyse and apply how laws are made. Project based learning will help you to strengthen your knowledge of the law and apply it to current issues.

Assessment

- 40% Coursework
- 60% Controlled assessment

GEOGRAPHY A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you want to experience the world and want to know about how and why things happen. During this course you will mix physical and human geography to understand what makes things happen across the UK and the world.

Course Topics

- Tectonic plates and coasts
- Globalisation and regeneration
- Water and carbon cycles
- Superpowers, migration and identity

You will have the chance to complete an independent investigation in the second year.

Assessment

- 20% Coursework
- 80% Controlled assessment

Develop an inquiring mind and the research skills required for further study through excellent field work opportunities.

ART, DESIGN & FASHION

Follow Franklin

@FranklinGrimsby

FINE ART A Level

Level	Programme	Duration
3	Single	2 Years

This course is perfect if you are a creative person with a passion for exploring ideas and imaginatively developing your own visual projects. Choosing Fine Art as one of your courses will extend your skills, develop your understanding and confidence in taking an adventurous approach to responding to historic and contemporary art.

Course Topics

- Workshops in drawing, painting, sculpture, printmaking and new and emerging media
- Studio-based learning with supportive and critical guidance
- Developing personal thematic projects
- Gallery visits, guest speakers, trips, work on location and opportunities to showcase your own work

Assessment

- 60% Coursework
- 40% Examination

100% pass rate on all of our art courses, 3 years in a row!

GRAPHICS A Level

Level	Programme	Duration
3	Single	2 Years

This course is perfect if you are a creative thinker and image maker with a passion to communicate visually. Choosing Graphic Design as one of your courses will help set you up with the skills and understanding to gain a future in areas such as illustration, advertising, typography, package design and multimedia design.

Course Topics

- Illustration, typography, infographics, product design, branding and multimedia design
- Learn in our Mac Suite
- Learn in our traditional print and design studio
- Solve design problems through creative projects and respond to real life briefs

Assessment

- 60% Coursework
- 40% Examination

Hear from guest speakers, participate in trips and visits, and showcase your own work.

FASHION & TEXTILES A Level

Level	Programme	Duration
3	Single	2 Years

This course is perfect for you if you want to learn constructing, stitching, assembling, printing and designing. If you have a feel for materials and construction, then Fashion & Textiles is the course for you.

Studying this course can lead to a career in fashion design, fabric design, fashion styling and interior design.

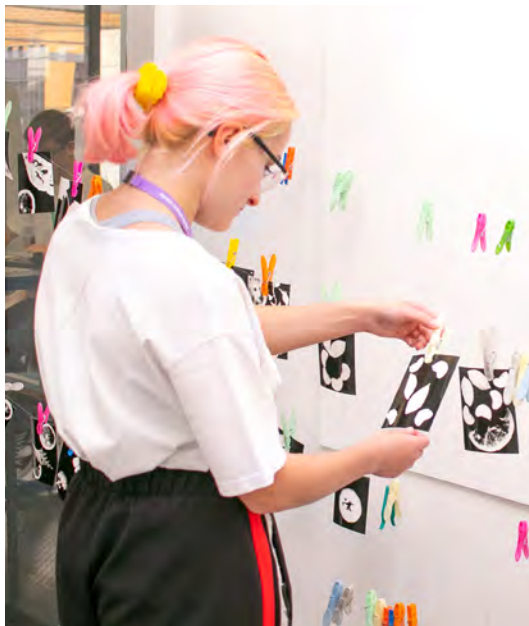

Course Topics

- Stitch, print, pattern, garment construction, 3D construction, needling felting, and fashion illustration
- Explore personal thematic fashion and textiles projects in a supportive studio environment
- Fashion shows, showcasing own work in exhibitions, visits to exhibitions and guest speakers

Assessment

- 60% Coursework
- 40% Examination

Did you know that there are almost 2.3 million creative jobs in the UK? In 2021 the creative industries contributed £71bn to the UK economy.

PHOTOGRAPHY A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect for you if you are excited by the fantastic opportunities of how you can record the world in which you live with a camera. Studying A Level Photography will help you to develop your personal creative vision through a technical and experimental approach to photography.

Course Topics

- Film photography, camera skills, process and print film techniques in a darkroom
- Digital photography and skills in Photoshop and postproduction display
- Work on personal thematic projects and be inspired by photographers
- Engage with photoshoots on location, trips, exhibitions, and opportunities to showcase own work

Assessment

- 60% Coursework
- 40% Examination

PHOTOGRAPHY CTEC (Level 3)

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you want to study photography and gain the skills needed to develop exciting personal photography projects. This course will give you the foundations to succeed in a creative future whether that be straight into the industry or progressing on to higher education after Franklin. This course is suited to you if you prefer assessments to be coursework based.

BUSINESS

BTEC First Certificate (Level 2)

Level	Programme	Duration
2	Double	1 Year

This course is perfect if you want to learn how to start your own business or understand how businesses work. You will study a range of topics such as customer service, team building, advertising, creating a website and making money. This course is equivalent to 2 GCSEs and our students often progress onto Level 3 BTEC Business, before securing a job or a place at university. Our team of enthusiastic and experienced staff have significant business knowledge between them, being able to offer you support and share your love of the business world.

Course Topics

- Enterprise in the business world
- Finance for business
- Principles of marketing
- Customer service
- Business online
- Promoting a brand
- Team building

Assessment

- 75% Coursework
- 25% Examination

BUSINESS

BTEC (Level 3)

Level	Programme	Duration
3	Single, Double or Triple	2 Years

This course is perfect for preparing you for the world of work. It will help you to develop personally and professionally through skills such as financial management, communication, report writing and presentation skills. The units you will study cover how businesses are organised, how they market themselves and how they conduct their recruitment process. You will also study a personal and business finance aspect which would help you prepare for life at university.

Single BTEC Business

Studying Single BTEC Business as just one of your course choices will give you a greater understanding on how businesses operate and how a business is relevant in all aspects of life. This course will complement any other courses you choose.

Single Course Topics

- Exploring business
- Developing a marketing campaign
- Personal and business finance
- Recruitment and selection

Double BTEC Business

Studying Double BTEC Business as two of your course choices allows you to develop your business knowledge even further. In addition to the core units, you will also learn skills which can be used in managing your own business and people, not just on a national scale but globally.

**100% pass rate
across our level
3 Business,
Economics & Travel
courses compared
to 96% nationally.**

Double Course Topics

- Exploring business
- Developing a marketing campaign
- Personal and business finance
- Managing an event
- International business
- Principles of management
- Recruitment and selection
- Pitching a business idea

Triple BTEC Business

Studying BTEC Business as all three of your course choices will give you an opportunity to become an expert in this field. You will also have a chance to showcase and develop your skills in a workplace environment. As a Triple BTEC Business student you will be able to gain work experience as part of the course. You will be studying the topics from all three of the course topics, plus the following:

Triple Course Topics

- Customer service
- Team building
- Creative promotion
- Market research

Assessment

A mixture of external and internal assessments, these will include:

- Coursework
- Exams
- Controlled assessments

BUSINESS STUDIES

A Level

Duration
2 Years

This course is perfect if you want to learn more about the world of business and how it is constantly changing. You will study four main areas which include: marketing and people management, finance and accounting, making long term business decisions and business on a global scale. Through studying real life business case studies, you will have the relevant skills for a variety of progression routes including self-employment, university study or the world of work.

ECONOMICS
A Level

Duration
2 Years

This course is perfect for you if you want to study the dynamic and exciting world of economics. Throughout the course you will explore how external shocks and events around the world impact on firms, consumers, employees and how the Government intervenes. If you have an interest in current affairs and a head for numbers then you could be a future economist, business analyst or accountant.

Course Topics

- Marketing and people
- Managing and business activity
- Global business
- Business decisions and strategy

Assessment

- 100% Examination

Course Topics

- Introduction to markets and market failure
- The UK economy
- Business behaviour and the labour market
- A global perspective

Assessment

- 100% Examination

FINANCIAL STUDIES

LIBF (Level 3)

Duration
2 Years

This course is perfect if you want to learn how to be a savvy saver, a responsible borrower or would like an introduction to investing in the Stock Market. Learn about financial products, such as credit cards, loans and mortgages. In addition, research how the Global Financial Crash of 2008 affected the financial industry and its customers.

Course Topics

- Understanding money and its main purposes
- How good money management can help you meet your aspirations
- How external factors can have an impact on individual finances
- What financial providers do to look after their customers

Through your studies, you will develop an understanding of how to finance your future, how to make the most of financial services products in order to meet future needs and aspirations, and how to ensure sustainability. You will get the opportunity to take part in a competition where you will be a Virtual Trader testing your skills against other schools and colleges around the country. You will have the opportunity to visit the financial district home of the Bank of England, plus the Fenchurch Building, known commonly as the Walkie Talkie building.

Assessment

- 100% Examination

TRAVEL & TOURISM BTEC (Level 2)

Level	Programme	Duration
2	Double	1 Year

This course is perfect if you are preparing to pursue a career in the Travel and Tourism Industry. You will work towards upskilling and gaining knowledge for you to work in airports, with airlines and tour operators, travel agencies, hotels or other accommodation, tourist information centres, tourist attractions, cruise line companies, holiday centres, conference or event organisations.

Course Topics

- Explore factors that impact on tourism
- Investigate popular travel destinations
- Create marketing campaigns for travel brands

During this course you will have the opportunity to go on a wide range of fantastic trips including Euro Disney, The Deep and Winter Wonderland.

Assessment

- A mixture of internal and external assessments

TRAVEL & TOURISM BTEC (Level 3)

Level	Programme	Duration
3	Single	2 Years

This course is perfect if you wish to pursue a career as a travel rep, cabin crew, creating marketing and advertising for travel products and destinations or even becoming a social media influencer travelling the globe. In Travel and Tourism, we cover the tourism industry in the UK, Europe and the rest of the world, exploring places such as London, New York and Dubai (to name a few), whilst understanding the importance of customer service.

Course Topics

- The World of Travel and Tourism
- Principles of Marketing in Travel and Tourism Global Destinations
- UK Visitor Attractions

Assessment

- A mixture of internal and external assessments

@FranklinGrimsby

ENGLISH LANGUAGE GCSE

Level	Programme	Duration
2	Single	1 Year

This course is perfect if you want to experience a fresh approach with supportive staff. GCSE English will set you on the right path to your future.

Course Topics

- Explore interesting topics
- Develop your creative writing skills
- Build strategies to succeed in the exams and beyond

Studying English at Franklin gives you the best possible opportunity to progress and gain confidence in the subject. We consistently score much higher than the national average for students improving their entry grade and going on to achieve the national pass of grade 4 or above.

Assessment

- 100% Examination

ENGLISH LANGUAGE A Level

Level	Programme	Duration
3	Single	2 Years

If you are interested in studying a diverse course that questions the society we live in, then this course is perfect for you. You will build your grammatical and linguistic knowledge whilst exploring the importance of language for understanding the past and changing the future.

Course Topics

- Explore the impact of social media and technology on language
- Go back to 950 AD to track changes in the attitudes and values of society
- Learn how people use language to control and influence others
- Find out why the Forbidden Experiment impacts our understanding of child language acquisition
- Practise being a professional writer as you learn how to respond to a brief

On this course you will get the chance to go on many different enrichment opportunities such as visits to London to virtual talks from David Crystal (the world's leading linguistic expert). You will also be able to experience university lectures and seminars and hear from those who have used the subject in their varied careers. You might also want to join the Creative Writing club to enhance your writing and have the opportunity to enter national competitions.

Assessment

- 20% Coursework
- 80% Examination

ENGLISH LITERATURE A Level

Level	Programme	Duration
3	Single	2 Years

If you are passionate about reading and like to debate ideas then this course is the perfect choice. You will explore how society and culture have changed, discuss controversial topics, and explore how writers portray the world we live in.

Course Topics

- Explore murder and manipulation with 'Othello'
- Examine the impact of childhood experiences and prejudice in 'The Color Purple' & 'Hard Times'
- See the world through a poet's eyes as they comment on life
- Select your own texts to study for coursework

To immerse you in the world of Literature, theatre trips and live streaming events take place alongside trips to London and the Lake District. You will experience university lectures and workshops with visiting lecturers. You could also enhance your skills by joining our successful Debate Club where you can take part in weekly topical debates and competitions.

Assessment

- 20% Coursework
- 80% Examination

100% of English Literature and Language students progressed on to further study or employment in 2021.

FRENCH A Level

Level	Programme	Duration
3	Single	2 Years

This course is perfect for learners who have a keen interest in other countries and cultures, or a desire to engage in international business or travel. It will give you the tools to manipulate your language, justify your opinions, and build excellent communication skills - all whilst exploring the French culture and language.

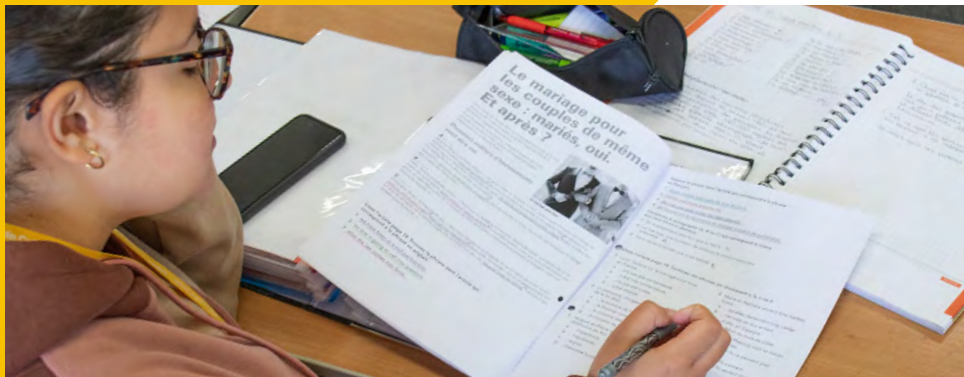

Course Topics

- Explore the structure of the French family
- Engage with contemporary music and media
- Examine French political culture
- Investigate historical events linked to WW2

French is a subject that requires a lot of speaking so you will get lots of individual speaking practice to develop your proficiency and confidence. The department provides lots of reading, listening and skills support in extra timetabled sessions. You may get the opportunity to pick up another foreign language such as Portuguese or Italian and participate in a nationwide foreign writing competition.

Assessment

- 100% Examination

SPANISH A Level

Level
3

Programme
Single

Duration
2 Years

If you enjoy communicating with others and have a keen interest in different cultures then A Level Spanish is perfect for you. You will gain a deeper understanding of the language whilst studying the literature, film and culture of Spanish speaking countries.

Course Topics

- Explore changes to modern Spanish society
- Study the arts, media and festival in the Spanish speaking world
- Study a Spanish language film
- Examine multiculturalism in Spain
- Investigate the effects of the Spanish Civil War
- Read the Spanish novel "Like Water for Chocolate"

Assessment

- 100% Examination

Spanish is a subject that requires a lot of speaking so you will get lots of individual speaking practice to develop your proficiency and confidence. The department provides lots of reading, listening and skills support in extra timetabled sessions. You may get the opportunity to pick up another foreign language such as Portuguese or Italian and participate in a nationwide foreign writing competition.

Studying Modern Foreign Languages will prepare you for accessing many courses at Russell Group universities, including the University of Oxford.

HEALTH, SOCIAL & CHILD CARE

- Different approaches to play and learning
- A range of theories and teaching methods related to child development
- Reflective Practice – underpinning knowledge to practical situations
- Safeguarding and welfare of children

The course will allow progression onto a range of options including employment, higher education, or apprenticeships in these areas.

Assessment

- 30% Examination
- 70% Coursework

HEALTH & SOCIAL CARE CTEC (Level 3)

Level
3

Programme
Single, Double
or Triple

Duration
2 Years

This course is perfect for you if you want to develop the knowledge, skills and understanding required by professionals in health and social care services. You will learn how employees conduct themselves to benefit patients and service users, as well as researching a wide range of exciting topics.

Single Course Topics

- The importance of building positive relationships
- How to promote a person-centred approach
- Equality, diversity and rights
- The importance of health, safety and security in settings
- Public health strategies and the importance of key practitioners and organisations
- The importance of infection control and its application
- Anatomy and physiology

On this course you will study current and ever-changing Health and Social Care topics relevant to the world today. This will allow you to develop a range of practical and academic skills which supports other single course choices.

Single Course Assessment

- 60% Coursework
- 40% Examination

Double Course Topics

- To safeguard vulnerable individuals and recognising types and signs of abuse
- To plan, prepare and deliver creative activities
- To understand a range of long-term physiological conditions
- To support people with mental health conditions

This course provides you the opportunity to study a wider range of topics in Health Social Care and giving you a more detailed understanding of the sector. This offers you the chance to access subject-specific guest speakers from the industry, alongside advice and guidance from practitioners.

Double Course Assessment

- 50% Coursework
- 50% Examination

Triple Course Topics

- Promoting positive behaviour and demonstrating strategies to prevent escalation of unwanted behaviour whilst maintaining the person-centred approach
- Promoting health and wellbeing
- Research methods which will develop your skills of applying evidence-based research to current health and social care topics

This course will give you an in-depth holistic view of a wider range of Health and Social Care concepts and how different professionals carry out their practice. Subject-specialist staff will provide industry experience and knowledge to enhance your learning experience.

Triple Course Assessment

- 60% Coursework
- 40% Examination

You can look forward to using Adobe Creative Cloud industry standard software for all your creative work.

FILM STUDIES

A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect for you if you want to study a highly creative and thought-provoking subject. During this course you will study a range of exciting and challenging films that aim to broaden your horizons and introduce you to new ideas, ways of telling stories and help you see the power of cinema as an art form. You can look forward to thought-provoking debates about why audiences react to films in different ways, the role and impact of a director as well as a mix of political, social, cultural and historical contexts. Finally, you get to apply all these elements to create your own short film or screenplay.

Course Topics

- Study Hollywood (1930-1990)
- American film since 2005
- British film since 1995
- Global film/silent cinema
- Experimental film (1960-2000)
- Making short film or screenplay

Assessment

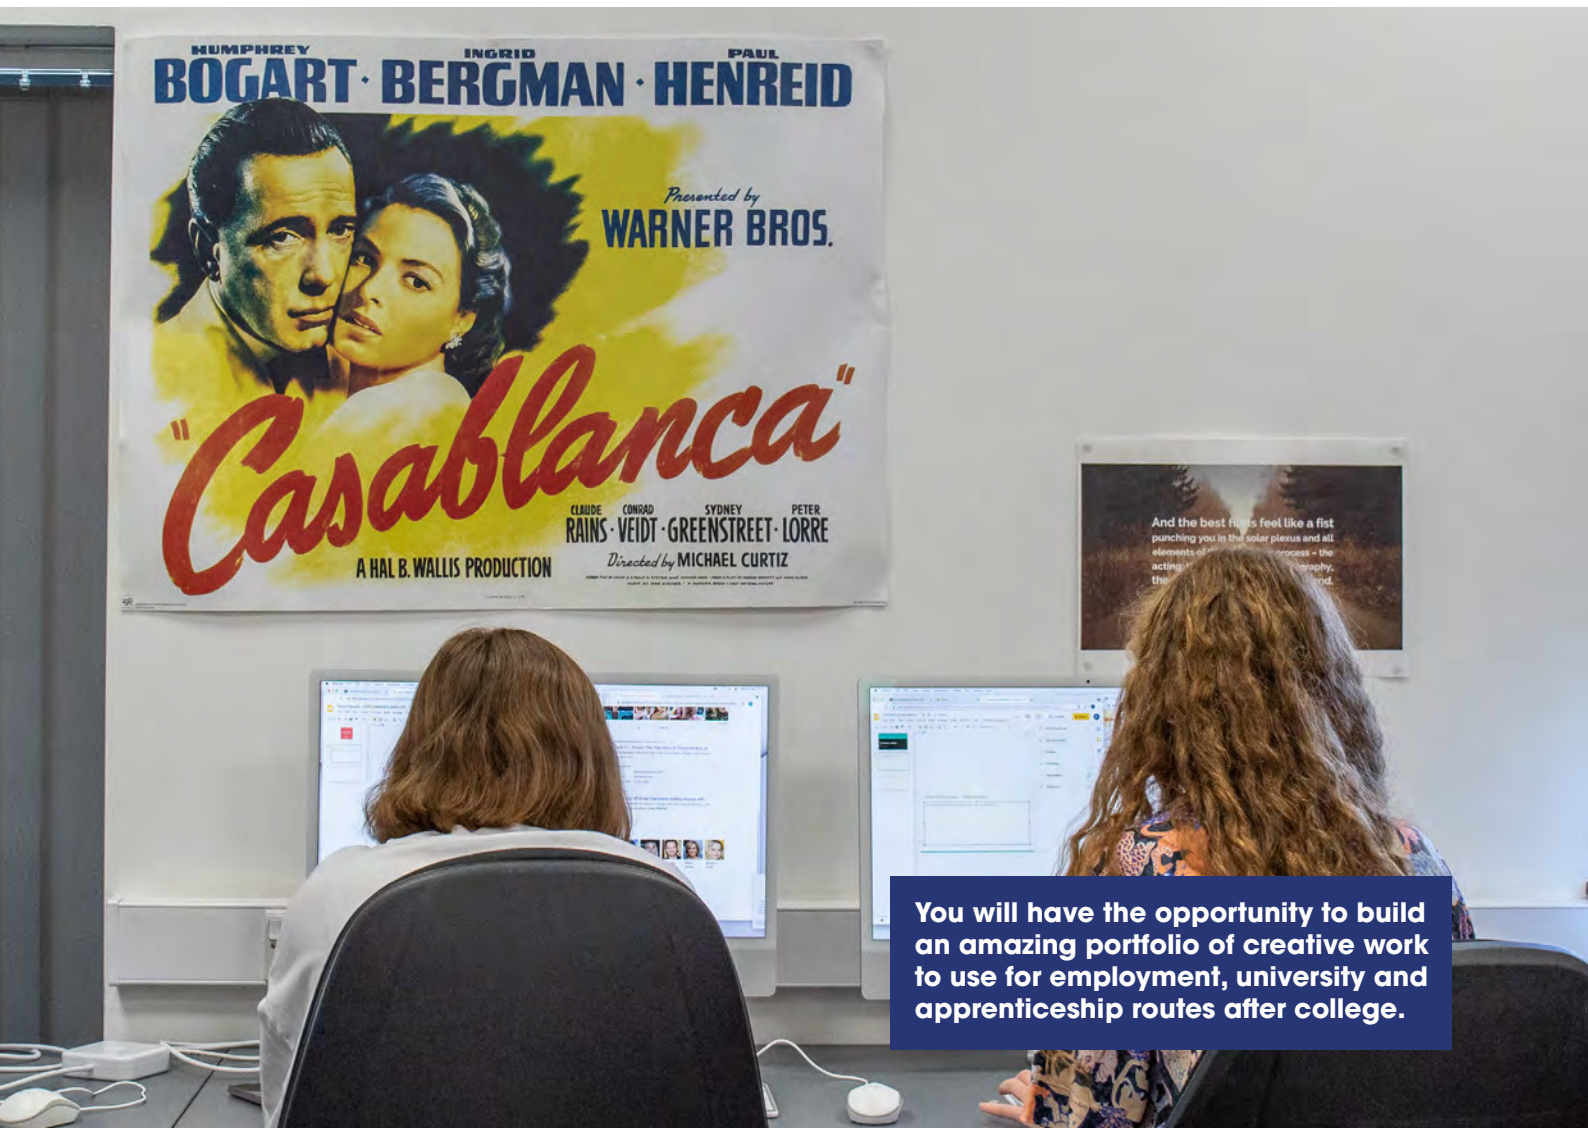

- 70% Examination
- 30% Coursework

Did you know? 'In 2020, there were over 8,600 film production companies and over 3,000 post-production companies in the UK.' (BFI 2021 report) A number of our former students have progressed on to careers in VFX editing, photography, marketing and teaching.

You will be able to enrich your studies with amazing trips to film festivals, Disneyland Paris and more.

You can expect to be working in an exceptional Mac suite classroom.

You will have the opportunity to build an amazing portfolio of creative work to use for employment, university and apprenticeship routes after college.

APPLIED PSYCHOLOGY BTEC (Level 3)

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you want to explore different aspects of psychology. You will learn how psychological theory and research is used and applied in everyday situations such as gender, consumer behaviour and dealing with aggression. Applied psychology can lead to a career in occupational health, child psychology, education, forensic and criminal psychology, counselling, police and medicine.

Course Topics

- Psychological approaches and applications
- Conducting psychological research
- Health Psychology
- Criminal and Forensic Psychology

Assessment

- 50% Coursework
- 50% Examination

**100% pass rate across
Psychology courses.**

PSYCHOLOGY A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you want to explore the dynamic nature of human behaviour such as why we queue in an orderly fashion, how we remember our phone numbers, if behaviour is a product of nature or nurture, and why some people turn to crime.

Course Topics

- How different psychologists explain behaviour
- How memory functions and how the social environment impacts behaviour
- Why some individuals experience depression, phobias and OCD and how this is treated
- The different areas of the brain and how they are responsible for behaviour
- How and why some individuals develop anorexia or obesity

Over the two years of study, you will learn how research methods such as experiments and observations play an important role in psychology as a science and you will develop your critical thinking, communication, mathematical, analytical and evaluative skills.

Assessment

- 100% Examination

CRIMINOLOGY WJEC (Level 3)

Level	Programme	Duration
3	Single	2 Years

Universities will support you on your next steps, offering subject specific opportunities.

This course is perfect if you want to study why individuals commit crimes and how criminal behaviour can be explained by the role we have in society. Our Criminology course explores this and much more.

Course Topics

- Changing awareness of crime
- Criminological theories
- Crime scene to courtroom
- Crime and Punishment

Assessment

- 50% Controlled Assessment
- 50% Examination

The use of real-life cases will be covered such as Stephen Lawrence, The Wests, OJ Simpson and many more.

SOCIOLOGY A Level

Level	Programme	Duration
3	Single	2 Years

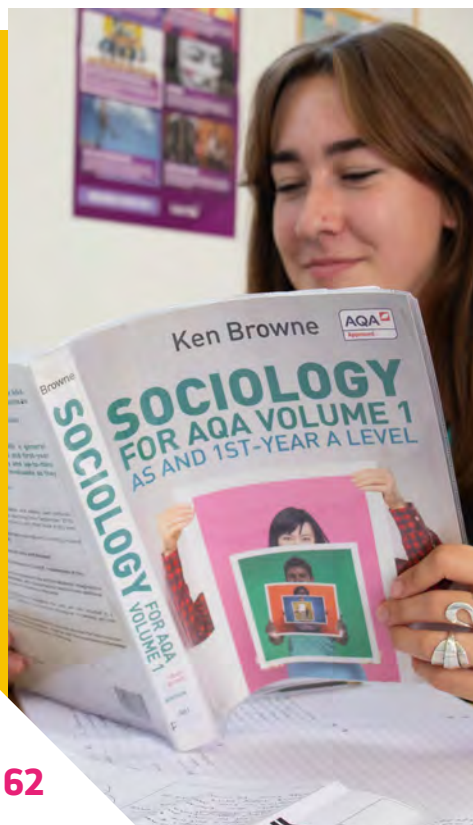

You will consider the ways society and the world around us affects our behaviour. This includes examining identities and experiences of discrimination. You can also look forward to studying why certain groups may commit crime, whether the media affects our behaviour and why some groups succeed more in education. If you have an interest in current affairs you will enjoy this course on which 65% of students in 2021 achieved a high grade.

Course Topics

- Reasons people commit crime and society's reaction
- The influence of the media on our behaviour and the way we see other groups of people in society
- Reasons for differences in educational achievement
- Experiences of discrimination by different social groups
- Reasons individuals adopt different identities, e.g. gender
- The research methods sociologists use to study society

Assessment

- 100% Examination

- Mechanics
- Use of Graphical Calculator to solve problems

Two-thirds of our course is the study of pure maths; this builds on your knowledge in algebra and trigonometry and introduces calculus. The last third is made up of mechanics and statistics.

Assessment

- 100% Examination

FURTHER MATHS A Level

Level	Programme	Duration
3	Single	2 Years

This course is perfect if you love maths and wish to gain breadth and depth in the subject. The course allows you to obtain two A-Levels and during the course you will study the whole of A Level Maths in your first year and A Level Further Maths in your second year.

Course Topics

- Further calculus
- Complex Numbers
- Decision (optional module)
- Mechanics (optional module)
- Further Statistics (optional module)

There are two compulsory pure papers for Further Maths and two optional papers. Decision maths includes solving real life logistic problems that may involve computer or road networks. Mechanics includes the study of forces & motion. Statistics is about the collection, organisation, analysis and interpretation of numerical data.

Assessment

- 100% Examination

BIOLOGY A Level

Level	Programme	Duration
3	Single	2 Years

This course is perfect if you want to explore how the study of Biology is used to help overcome the future challenges posed by climate change and feeding a growing population. If you are fascinated by life, then Biology is the right choice for you.

Course Topics

- Biology is highly valued by universities, not just as an essential for medical-related courses
- This course will introduce you to recent biological advances, including the influence of genetics, environmental issues and some of the ethical and technological aspects of biology
- As a practical subject you will develop experimental skills including how to plan, analyse and evaluate experimental procedures

A Level Biology is often essential for higher level medical-related course entry, and is also highly regarded by universities as a foundation for many science related degrees. As a practical subject you will develop experimental skills including how to plan, implement, analyse and evaluate experimental procedures.

Assessment

- 100% Examination in 3 exams at the end of the course. Practical skills are assessed separately through the Practical Endorsement - the grade for this is reported separately from the written exam grade on your A Level certificate

CHEMISTRY A Level

Level	Programme	Duration
3	Single	2 Years

This course is perfect if your future lies in molecular engineering, synthesising the next aspirin, or even law. During the course you will develop your lab skills alongside your theoretical knowledge and have the chance to participate in the RSC Junior Analyst competition.

Course Topics

- Builds upon topics previously studied at GCSE including Organic Chemistry, rates, reversible reactions and chemical calculations
- In this course you will use your mathematical skills to solve problems and your imagination to understand how molecules interact and why they react together

A Level Chemistry is essential for higher level medical-related course entry, and is also highly regarded by universities as a foundation for many science-related degrees. In this course you will use your mathematical skills to solve chemical problems and your imagination to understand how molecules interact and why they react together.

Assessment

- 100% Examination in 3 exams at the end of the course. Practical skills are assessed separately through the Practical Endorsement - the grade for this is reported separately from the written exam grade on your A Level certificate

PHYSICS

A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you want to study how physics is a fusion of maths and science which helps us understand the invisible to the unimaginably large. During the course you will develop your lab skills alongside your theoretical knowledge and have the chance to join our exciting STEM visit to Disneyland Paris where you can experience physics in action!

Course Topics

- You will cover topics such as mechanics, materials, particles and quantum phenomena, thermal properties, radioactivity, nuclear physics and many more
- Throughout the course core practical activities form a thread linking theoretical knowledge to practical scenarios

Assessment

- 100% Examination in 3 exams at the end of the course. Practical skills are assessed separately through the Practical Endorsement - the grade for this is reported separately from the written exam grade on your A Level certificate

APPLIED SCIENCE BTEC (Level 3)

Level
3

Programme
Single, Double
& Triple

Duration
2 Years

This course is perfect if you are a budding scientist. The course opens up many different careers, including biomedical science, pharmacology and law. During the course you will study key scientific ideas and refine your lab skills. Please note that biomedical science is available on the triple option only.

**Ask us about specialising
in biomedical science.**

Single Course Topics

- Focuses on the use of science in vocational contexts across the three main disciplines (Biology, Chemistry and Physics)
- Major emphasis on laboratory techniques, familiarising students with technical skills needed for scientific employment
- Course recognised by employers, professional institutions and HE establishments

Double Course Topics

- You will develop deeper understanding of scientific principles across the disciplines; Biology, Chemistry and Physics
- You will complete an individual investigation which you will plan, carry out and evaluate, managing the whole process from start to finish

On Double Applied Science/Biomedical Science you will have the opportunity to visit local employers and universities to see how the science you learn is used in the real world.

**On Applied Science you
will have the opportunity to
join our STEM Career Ready
programme.**

Triple Course Topics

- You will cover a wide range of science topics in more depth to allow you to experience the full breadth of the world of science, helping you to identify areas of interest and your future specialisms

The Extended Diploma pathway is particularly recommended if you intend on progressing to university or into a career with a scientific focus. This course includes the biomedical science option.

Assessment

- A combination of coursework and external examinations, with assignments produced in a variety of forms, including presentations and practical assessments

ENGINEERING CTEC (Level 3)

Level
3

Programme
Double

Duration
2 Years

This course is perfect if you like solving problems and thinking creatively. This course will open up a range of exciting careers to you, from energy to aviation and mechanics. During the course you will develop your knowledge and skills in the design, development, manufacture and maintenance of engineering products and systems.

This course is delivered in partnership with the University of Hull.

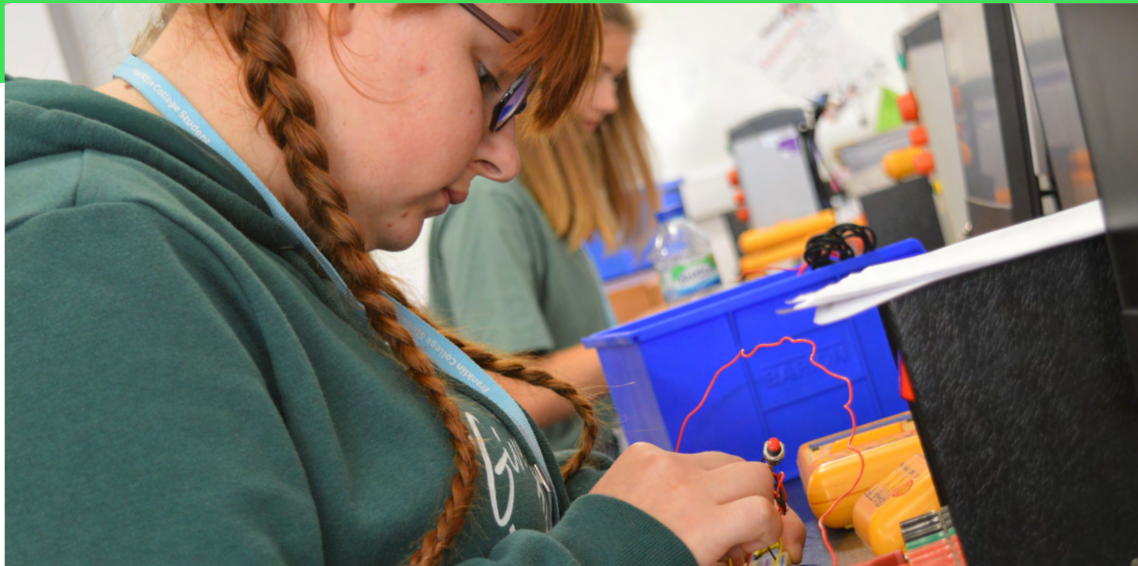

Course Topics

- Develop your knowledge and skills in the design, development, manufacture and maintenance of engineering products and systems
- Study physics, maths and electrical/ electronic/mechanical engineering.
- Learn how to design and test electronic circuits on printed circuit boards along with the use of simulation software in electronics.
- Use computer-aided design software to design 3D products and learn how to program a microchip and use it to control circuitry in project work
- You will have the opportunity to visit local universities and take part in projects and enrichments to gain industry insights
- All students of Engineering have the opportunity to join our STEM Career Ready programme

Assessment

- A mixture of internal and external assessments

“The University of Hull’s Department of Engineering is a proud partner of Franklin’s Engineering team. We work collaboratively to support and enhance their curriculum, familiarise students with university studies and provide the best possible advice and guidance to help them progress onto degree level Engineering and, ultimately, into rewarding and successful careers in the industry. It’s a pleasure to support dedicated Franklin students and prepare them for the future.”

NEW FOR 2022

APPLIED HUMAN BIOLOGY BTEC (Level 3)

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you want to further your studies of Biology by using a different approach from the traditional A level route. The combination of assessment styles will help to develop your confidence and allow you to apply your knowledge to succeed in the workplace. You will develop the study skills you need to be able to continue learning on higher education courses and throughout your career.

You will gain an insight into how human lifestyles and biology impact on the health of a person and populations. You will study the details of important human biological processes, then link them to common health and healthcare issues.

Course Topics

- You will study a variety of topics covering a range of Human Biology – from microbiology and infectious diseases to the main aspects of the human body, such as the circulatory system, cells, tissues and biological molecules

Assessment

- A mixture of internal and external assessments
- All students of Human Biology have the opportunity to join our STEM Career Ready programme.

SPORT & PUBLIC SERVICES

Follow Franklin     @FranklinGrimsby

SPORT BTEC (Level 3)

Level
3

Programme
Single, Double

Duration
2 Years

This course is perfect if you have a passion for sport and progressing onto an exciting career in the sports industry. The course will help you to deconstruct performance and training, allowing you to make a well-informed judgement on aspects of sport.

Single Option Topics

- Anatomy and physiology (externally set/ marked exam)
- Fitness training and programming (externally set/ marked controlled assessment)
- Professional development in the sports industry
- Practical sports performance

Double Option Topics

- You will study all single option modules
- Investigating business in sport/physical activity
- Sports coaching
- Skill acquisition
- Sports injuries
- Sports leadership

You will have access to various trips and workshops from a range of universities and sports industry locations. These will support your learning with a variety of experiences to help prepare you for life after Franklin. You will attend masterclasses in biomechanics, VO2 max testing, fitness analysis and sports injuries at a specialist clinic. You will also have the opportunity to complete your Sports Leaders Award and apply learning to practice. A fantastic course in preparation for working in sport.

Assessment

- This course is assessed through a variety of different assignments and controlled assessments. Our specialist staff will support you to achieve your best possible grades.

**The UK sports industry
is worth £39 billion.**

PHYSICAL EDUCATION A Level

Level
3

Programme
Single

Duration
2 Years

This course is perfect if you are passionate about sport and performance. During this course you will get a chance to study various aspects of sport in depth, allowing you to optimise your performance skills and knowledge, inspiring you into various sport-related careers.

Course Topics

- Anatomy, physiology and biomechanics
- Skill acquisition and sports psychology
- Biomechanics
- Historical, social and cultural issues in sport
- Practical performance in ONE sport
- Written coursework practical assessment of strengths and weaknesses in ONE sport

You will get the opportunity to participate in various sports teams and recreational activities through the department's enrichment offer. You will have access to various trips and workshops organised by local universities looking at deepening your knowledge on topics such as biomechanics and V02 max testing. Local trips to employers such as Cleethorpes Leisure Centre and a sports injuries clinic help you to apply theory to the workplace.

Assessment

- 70% Examination
- 30% Practical Assessment

PUBLIC SERVICES BTEC (Level 2)

Level 2	Programme Double	Duration 1 Year
------------	---------------------	--------------------

This course is perfect if you want to prepare for our Level 3 Uniformed Protective Services course where you will learn about specific employability skills and knowledge. This course will involve various trips and practical activities linked to the police, NHS, fire and armed services.

Course Topics

- The role and work of the public services
- Law & Crime
- Living a healthy lifestyle, fitness and employability skills
- The working skills required to meet the needs of the public

Visits and trips on this course will give you a great insight into work within the public services. You'll meet different forces and representatives from different charities and organisations. You will have the opportunity take part in trips to different open events and

activities with the likes of the Army, Royal Marines and the Blue Cross. The fantastic enrichment involved in this course gives a great insight into the range of the sector and really prepares you for our Level 3 Uniformed Protective Services course.

Assessment

- A combination of coursework and external examinations, with assignments produced in a variety of forms including presentations, and practical assessments.

UNIFORMED PROTECTIVE SERVICES BTEC (Level 3)

Level 3	Programme Single, Double	Duration 2 Years
------------	-----------------------------	---------------------

This course is perfect if you are interested in going into any public service. This course will prepare you with specific employability skills and knowledge and it will involve various trips and practical activities linked to the police, NHS, fire and armed services.

Single Course Topics

- Behaviour and discipline in the Uniformed Protective Services
- Teamwork, leadership and communication in the Uniformed Protective Services
- Introduction to Criminology
- Police Powers and the Law

Double Course Topics

- Citizenship and Diversity
- Physical Preparation, Health and Wellbeing
- Government and the Protective Services
- Developing personal fitness programmes

You will be provided with a range of trips and guest speakers to enhance the delivery of the units. For example, visits from police officers, representatives from various local charities and the armed forces. Trips could include you participating in fitness testing, completing an army assault course or joining the Royal Marines as part of their open day recruitment event.

Assessment

- A combination of coursework and external examinations, with assignments produced in a variety of forms including, presentations and practical assessments.

On the Uniformed Protective Services course 21/22 students had outward bound trips to Peaks Lane Fire Station, Hull Prison, Melton Police Station, Elsham Hall paintballing and a huge range of Uniformed Protective Service activities led by Army, Navy and Air Force personnel.

GRIMSBY TOWN FOOTBALL SHADOW SCHOLARSHIP BTEC (Level 3)

Level	Programme	Duration
3	Triple	2 Years

This course is perfect if you want a chance to represent our Grimsby Town FC Football Shadow Scholarship Team while studying for a career in sport. This course is delivered in partnership with Grimsby Town Sports & Education Trust.

This course is delivered in partnership with Grimsby Town Sports & Education Trust.

Course Topics

- Anatomy and physiology
- Fitness training and programming for health wellbeing for Sport
- Professional development in the sports industry
- Sports leadership
- Sports coaching
- Practical sports performance

The Grimsby Town Sports and Education Trust programme gives you the opportunity to study and play football whilst representing a youth team sports apprenticeship. You will train four times a week and then compete against other professional football clubs' teams. You will compete in a regional league between October and May and enter several national cup competitions. The team has won various EFL national titles over the last three years.

Assessment

- 100% Coursework
